Specialities:

Gear:

Summary: (machine translated)
Simple canyon with equipment in natural near Sabiñánigo. It dries quickly so it is better to do after rains.

Hydrology: (machine translated)
Simple, the access path crosses the ravine, in the final part it is somewhat more difficult because it is a narrow area.

Access: (machine translated)
On the N260 to Sabiñanigo, take the exit for Sardas and Larrede.
Bcos As Gargantas and Salto
We will continue towards Larrede (Serrablo Route) until we find the detour to the right to Satué and its 11th century Mozarabic church.

Approach: (machine translated)
Once in the village we continue along the PR-HU5 (white and yellow marks) up the mountain until we cross the stream. We will have to cross it three times, in the third we have the headwaters. It is a little long and quite steep, so enjoy the scenery.
Reference: the path leaves to the left of the church.

Tour: (machine translated)
Simple descent with rappels in natural and that except after rains will not take water or will be very little. The access trail crosses three times so we have plenty of escapes.

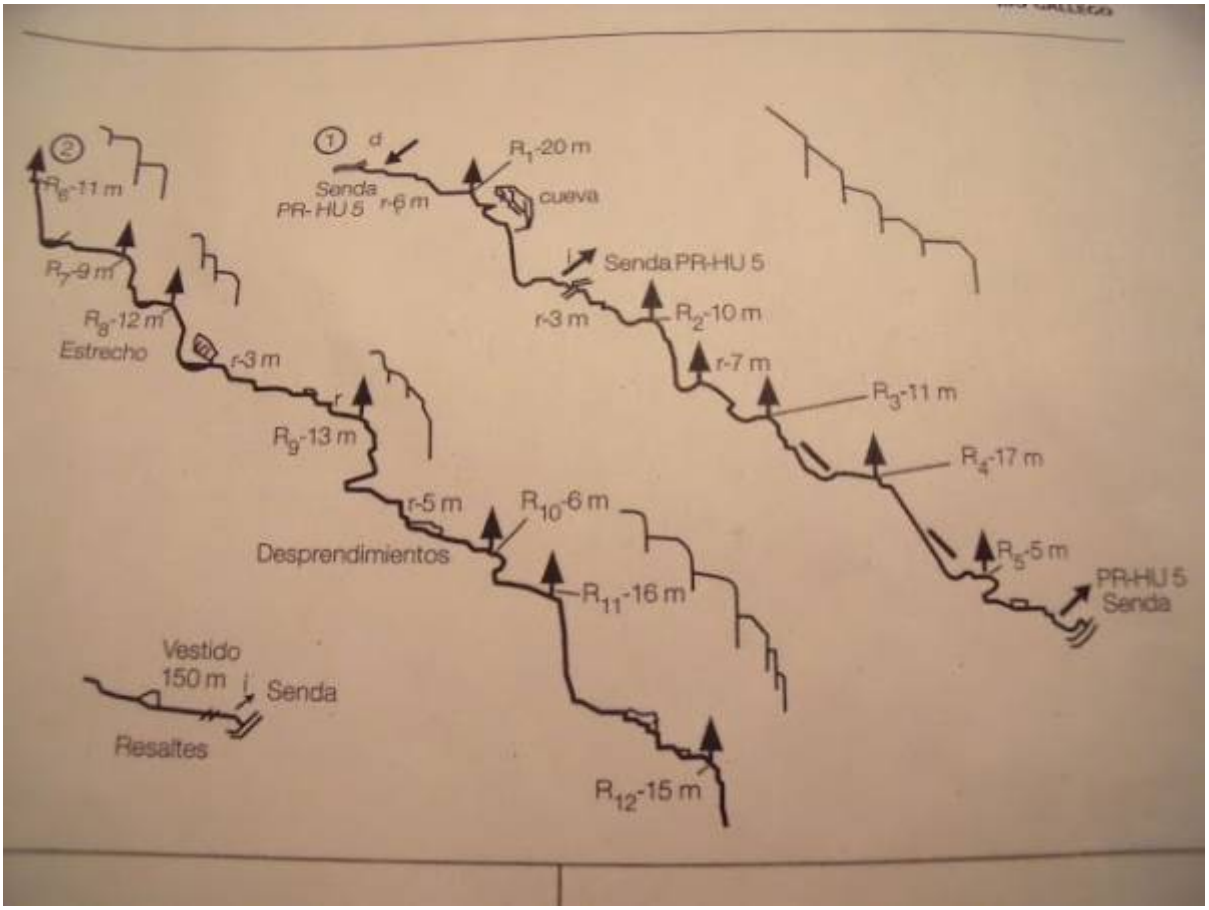

Return: (machine translated)
When we reach an old track, we take it to the left until we reach the access path.

Coordinates:
Canyon Start 42.5298 -0.3179
