Automatisch importiert von Descente-Canyon.com für Canyon Caussiste Petit débit malgré les pluies de ces derniers jours. Des points et cordes fixes ont étés rajoutées au tout dernier obstacle (le mini tob où un rocher s'est glissé à la réception), une très bonne chose. Le canyon mériterait aussi un petit déboisement pour dégager tous les arbres qui s'y sont logés. Sinon RAS (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21404/observations.html)
