Summary: (machine translated) Relatively open aquatic rappel canyon with some possible jumps		
Hydrology:		
Access: (machine translated) Leave the A5 highway at Pont-Saint-Martin and drive towards Donnas. Continue over the river Boltea to Outrefer. Park one vehicle near the bridge over the Bonze. Continue with the 2nd vehicle to Montey and from there up to the houses of Donnes (865m altitude).		
Approach: (machine translated) To the Fer inferiore: A path leads directly from the car in a steep NW direction down to the stream. To reach the upper entry point for the integral ascent, we take the slope at the car parked at the top, which initially runs NNW and later SSW towards the stream. We take the path where the slope crosses the stream.		
Tour: (machine translated) 20 rappels in total, 9 rappels in the lower part in a great ambience. Relatively open at the beginning, increasingly incised as the lower part progresses. Possible jumps. Exit via a small metal ladder to the right onto the path by the water drainage.		
Return: (machine translated) We follow the path in the forest (parallel to the stream) to the lower car.

Automatisch importiert von Descente-Canyon.com für Canyon Fer Fait la partie aval. Equipement correct et hors actif qui permet d'éviter le jus. Certaines vasques sont bien profondes pour sauter mais être sûr de ses appuis parce que c'est très très glissant! Navette plutôt longue... Automatisch importiert von Descente-Canyon.com für Canyon Fer Chemin bien raide pour attaquer l’aventure. Tous les points sont nickel. Passage sur capable un peu technique mais largement passable. Une main courante sur la C10 un peu chaude, ça glissotte gentiment. Mais prévoir plus de rappels qu’annoncé, ils disent 9 mais en vrai on en fait une grosse dizaine. Nice canyon in little discontinuous but with nice pools, verdant environment in a wild valley. A few stops not quite in top condition (machine translated)

Fer is certainly a beautiful canyon, but in my opinion it is generally overrated. There are more rewarding canyons in the Aosta Valley. Video of the tour: https://www.youtube.com/watch?v=lP_nWFWfviA (machine translated)
