<b>Summary:</b> (machine translated) Rappel canyon in limestone; only shallow pools; short beautiful tour; at the exit brittle access with old wire rope protection; good entry tour into the vertical; beautiful view.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Bad Ischl you drive on the Bundstraße to the right in the direction of Bad Goisern --> in Bad Goisern further to the right in the direction of Hallstatt --> immediately after the bridge over the Traun (footbridge) turn right --> after a few meters you drive over another small bridge (Simple Bach) --> park here to the left next to the company.		
<b>Approach:</b> (machine translated) From the parking lot take the path on the right next to the brook up to the brine path (large power pole) --> cross the brook on the left and immediately after the bridge follow the steep path uphill on the right at the monument --> after approx. 20min. on the steep path you reach a power plant house (pipeline) --> here do not continue uphill, but without a large difference in altitude on the right. follow the tracks in the direction of the canyons --> after a short steep traverse incl. gravel gully you reach an old rusty steel rope (Attention!!!! fragile terrain, difficult access) --> follow the rusty steel rope to the entry in the canyon (Tip: with canyoning beginners you also have the possibility to rappel from a tree with a sling on the right about 40m into the canyon --> see topographic view).		
<b>Tour:</b> (machine translated) The canyon is very open with very good and clear abseils and shallow pools --> good practice tour to prepare for higher abseils --> mostly little water (in summer partly dry therefore better after rainfall). After the descent over the boulder field (upper entry) the first two rappels follow immediately --> left C8 and right C40 --> here you already have a nice view of the Hallstätter See --> continuous rappels follow --> right. C25, left C4, right C20 (narrow passage), left C7 (also bypassable), C5, C20, right C15, followed by the highest rappel on the right C45 (also divisible C25 + C20) to reach the exposed chain anchor on the right you rappel from the left about 10m. --> The last narrow abseil stage C10 follows in pools with old dilapidated water drainage.		
<b>Return:</b> (machine translated) Walk in the mostly dry streambed to the bridge --> follow the trail to the left of the streambed back to the parking lot.

## Reports:

2025-09-06 | Marosffy Dániel | ★★★★★ | 📖★★ | 📍★★★ | 🌊 High | 🟢 Completed

The access is a bit of horror, the canyon afterwards is the reward. C5 was missing for us causing a slight misunderstanding. C45 should be approached still in the rope from above, pretty tough otherwise.

Cool canyon, and after overnight rainfall it's at 5 \* Parking right near the bridge, at the canyon itself. (machine translated)

2024-05-25 | Georg Rudelstorfer | ★★★★★ | 📖★★★ | 📍★★ | 🌊 Low | 🟢 Completed

Everything ok (machine translated)

2024-05-09 | Thomas Fras | ★★★★★ | 📖★★★ | 📍★★ | 🌊 Low | 🟢 Completed

At the exit of the rusty wire rope there is now a wing ring on the left 📖 for the brittle 20m descent into the stream. Stands otherwise all ok. (machine translated)
