Summary: (machine translated)
Sister vertical canyon of Salt del Sallent, a first part in steps that brings us closer to the vertical of the canyon.

Hydrology: (machine translated)
Impossible in the circus. Between the first and the second part by the circus ring.

Access: (machine translated)
Access Circ Sallent
We have two possible accesses:
By the C17 to Sant Quirze de Besora and then to Vidrà by the BV5227.
Or from Olot by the C152 to Presses and turn on the GIV5226 to Sant Privat d'en Bas.
Access Circ Sallent by Vidrà
From Vidrà we will follow the road to Ciuret, we will pass it and almost arriving to the Coll de Ciuret the road turns to the left in a strong curve with a track that goes straight ahead, we will take it towards "el Sallent" and "Pla Traver". Once in the pass we take the track on the right towards Pla Traver or a track in worse condition to "El Sallent".
Access Circ Sallent by Sant Privat
From Sant Privat follow the signs to Salt del Sallent to Pla d'en Xurri.

Approach: (machine translated)
Approach to Hortals, PlaTraver, Cavorques Sup and Inf, Sallent and Ginebrar ravines.
From "El Sallent" we can go along the track of the cirque to the head of Salt del Sallent and then to the lower part of Cavorques.
We can also go up to Pla Traver and take the track that goes along the upper part of the cirque and after passing the Hortals cirque reaches the upper part of Cavorques.
From Pla d'en Xurri continue to the viewpoint of Salt and take the path that goes to the right and up the Escales to El Sallent.

Tour: (machine translated)
It consists of two parts, the first one with rappels that take us down to the forest and the track of the cirque. Once here begins the most vertical descent with 3 rappels to split the 100m waterfall.
Once down we join the descent of the Salt del Sallent and descend to the Gorg del Diable.

Return: (machine translated)
Depending on where we have the car we will go down to Pla d'en Xurri through the path or we will turn left to go up through les Escales to El Sallent.
