Warnings:
inactive: *Avoid disturbance through mass canyoning* (11.08.25 - 31.08.25)
After RIC 2025 big groups have been reported that caused litter at the parking sites, occupied private property, partied loud after canyoning and parked without considering access by local inhabitants. Local communities are already pissed! In order to avoid negative consequences and regulations please make sure that you act considering the environment and local communities. Please us every car completey to avoid congestions at the parkings, use alternative parking, be quiet, restict whistle use in the canyon to a minimum, respect local catholic culture by not undressing visibly and use clothing for ascent. Do not party after canyoning in the parking spots and remove your litter please!

Specialities:

Gear:
Ropes: 2x 45m

Summary: (machine translated)
Beautiful granite canyon with wonderful washouts, partly quite aquatic , with 5 rappels, some jumps and slides, at higher water levels the first C22 can be very demanding.

Hydrology:

Access: (machine translated)
From Biasca drive in the direction of Bellinzona. At the main road near Iragna turn right and park at the large parking lot at the beginning of the village (sports field).

Approach: (machine translated)
From the parking lot walk in the direction of the village center/bridge. Then left along the creek --> after the barrier you can see the last rappel (water level control) --> on the left side you pass the material ropeway --> hiking trail up past the back of the houses --> hiking trail goes over small stone bridge --> signposts --> small House --> stone steps with railing --> iron gate --> chapel --> leave hiking trail at the right bend at approx. 450Hm --> left narrow path down to the creek --> right past the rock (put on harness for rock) --> ahead to the tree --> from the tree 6m rappel (entry 420Hm).

Tour: (machine translated)
From the beginning you already have a very impressive view --> the first small pool you can slide (depending on gravel or stones) --> then follows immediately the approx. 40m waterfall (very slippery and sharp edges). This place can also be rappelled left 45m (!) outside the water (reachable via rope traverse) --> two short slides (flat) --> C22m downclimb (can also be rappelled outside the water) --> downclimb --> stone bridge --> short rappel or jump (5m) --> narrow channel (! Slippery) --> downclimb right about 20m (final part can also be rappelled) --> downclimb --> 2m downclimb right --> jump 6m (or rappel) --> final waterfall about 15m (very slippery, sharp edge) --> depending on the depth of the gump the last 2 places can also be rappelled (also possibility to rappel).

Return: (machine translated)
Exit directly at the starting point (who wants to jump a bit can do this at the end right of the rock (swimming possibility).

Automatisch importiert von Descente-Canyon.com für Canyon Iragna (inférieur) Fait uniquement à partir du pont.Le débit malgré l'heure de pluie pendant la nuit ne m'a pas interpellé plus que ça. La main courante avant le toboggan n'a plus de gaine à certains endroits.GlissantPetit message à ceux qui ont fait le canyon avant nous, une corde qui sert à sortir d'une vasque se remet en place pour que les suivants puissent l'utiliser à leur tour. Automatisch importiert von Descente-Canyon.com für Canyon Iragna (inférieur) Parcouru uniquement la partie inférieure. L'équipement est bon sauf les MC en fixe qui sont très abîmées. On évite l'actif dès qu'on peut avec ce débit. Le toboggan 20 juste après le pont de pierre est très technique avec ce débit et la roche qui glisse beaucoup. Mouvement d'eau à l'arrivée. Corde à lancer nécessaire ! (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2669/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Iragna (inférieur) DC+ Toujours aussi magnifique, R.A.SLe tob de 17 est démentiel ! Comme si on était dans un tub, pas violent mais bien penser à tout rentrer ! Drossage peu dangereux avec ce débit. Pleins de mc tonchées...
