Access: (machine translated)
On the TV3421 that goes to Roquetes, just before Mas de Barberáns, at pk 12.1 we have a detour "La Vall".
After two kilometers we have a detour, we take it to the left and continue for almost 2 kms until just before a left turn where the track crosses the Regatxol ravine. There is a cistern, here we can park a car if we see that the track is in bad condition, although the walk would be very long.
If we have a high car we will continue until the end of the track, with the ravine on our right.

Approach: (machine translated)
Almost direct, we will only have to go down to the riverbed and follow it through the forest for 500m.

Tour:
Ver topo

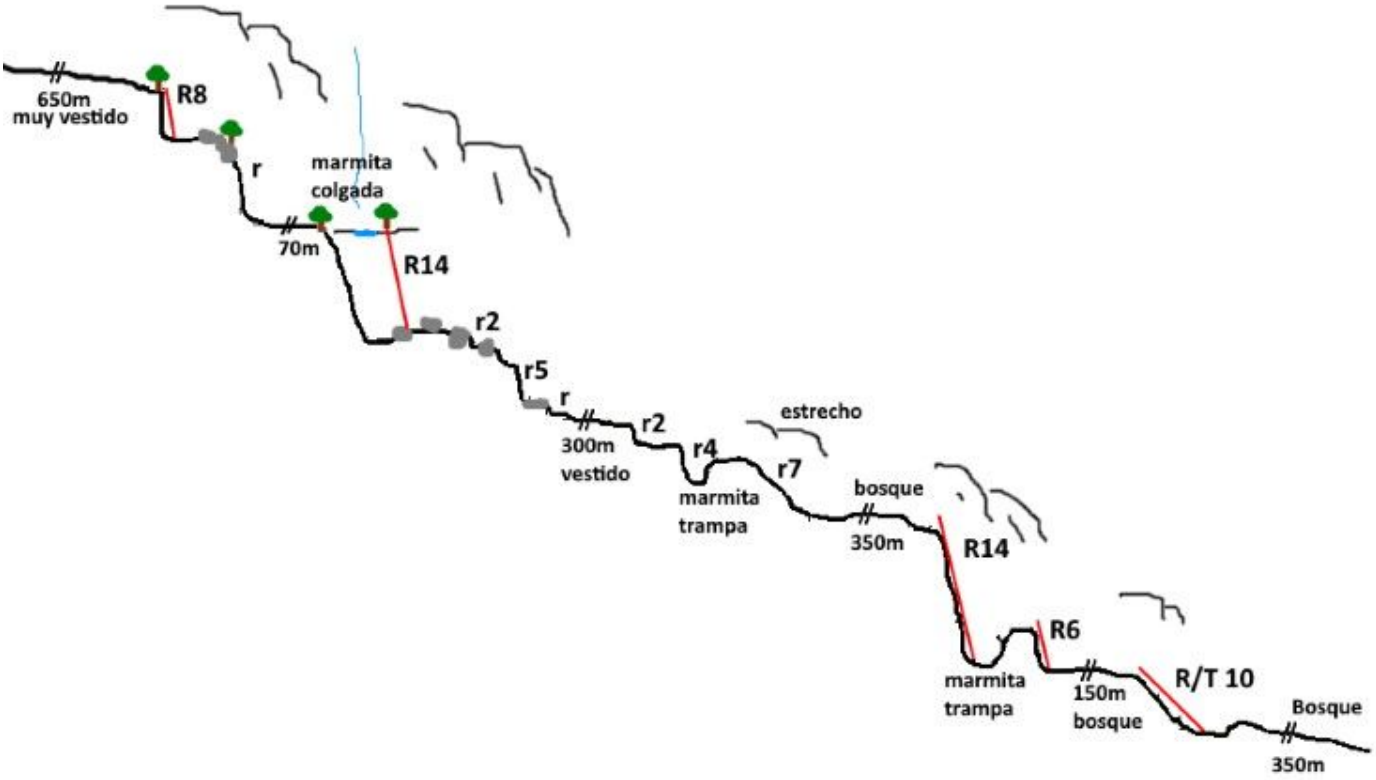

Return: (machine translated)
After the last rappel there is a stretch of forest and a small strait, after it a path with red markings on the right that leads up to the trail.
