Summary: (machine translated)
Nice, short and simple canyon in an ideal environment. If we manage to do it with water, we will see that it is a special ravine, with beautiful waterfalls.
Perfect to combine with bco Cantallops, any other activity, or simply to know the area, the flour mills of the seventeenth century, the refrigerator Regatxols, etc..

Hydrology: (machine translated)
Before the last rappel, it is the same path as the one by which we will return.

Access: (machine translated)
On the CV15 from Castellón we will go up to Coll d'Ares (pk 53), here we will turn to Ares, in 1 km we are in the village. Without turning off we will arrive at the square where we turn left in search of the Font del Regatxols.
In just over a kilometer we will arrive and park there or 150m later on a track that goes right to the abandoned Mas.

Approach: (machine translated)
Along the Más trail, we will continue downhill a little to cross a fence and gradually approach the riverbed before its small vertical

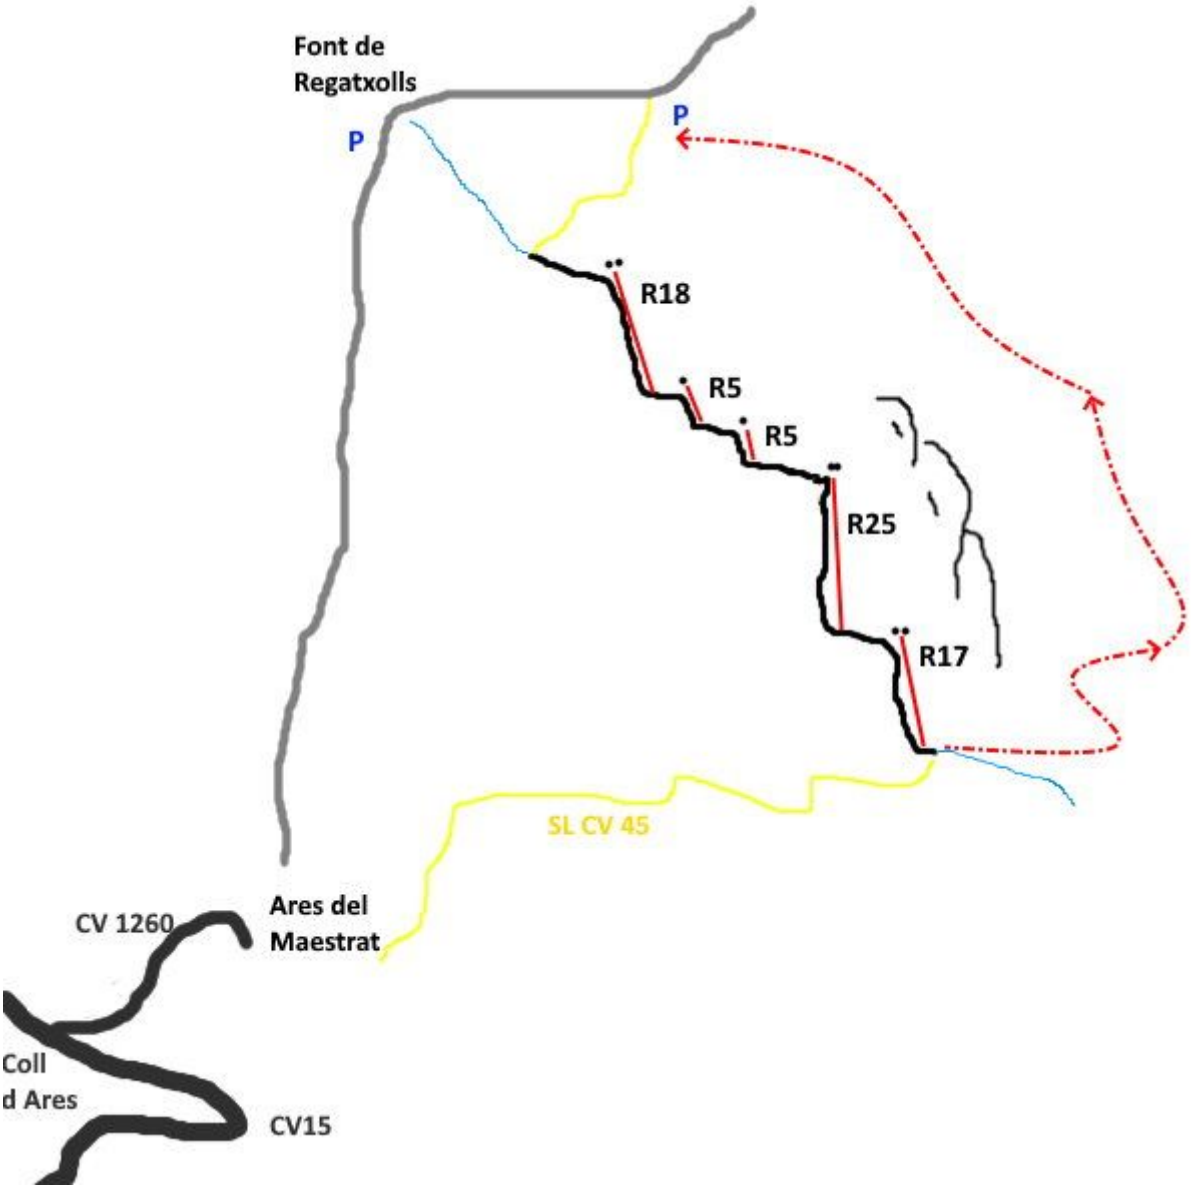

Tour: (machine translated)
5 rappels without much else

Return: (machine translated)
At the base of the last rappel we have the Moli and to the right the source of Llavadors. We can go back that way along the PR or go up the path that climbs the last waterfall and going around to the south leads us to the Mas de acceso (access point).
