Coming from Trento on the A22, take the Ala-Avio exit and follow the SP 90 towards Avio. After 2.5 km turn left onto Via Al Ponte and cross the highway to the east side of the Adige river. There we take the SP 12 and go down for 9.8 km along the left bank of the Adige river until just before entering Peri we turn left again onto the SP 57. Now we go uphill in many serpentines for 9 km to Fosse. In Fosse we turn right, drive through the village in a southerly direction and then at the end of the village we take the SP 33 to the right in the direction of Fumane, Breonio. After 4 km we reach Breonio, here we leave the SP 33 and take the road to Molino (3.5 km to get there). We park the e car in the designated parking lot northwest above the village.\nWith the second car or on foot we continue along the road that passes immediately by the church, in the direction of Sant' Anna d'Alfaedo. After 2.9 km, after a bend to the right, before entering the woods, we leave the second car at an information board.

Approach: (machine translated)
From the car we continue on the road, to then leave it a few meters before the following left turn down to the right. The first few meters of trailless steep descent we come across an indistinct path coming from the right and running parallel to the slope. Follow it to the left, climb over some stones on the path and then look for the track down to the streambed of the Scalucce on the back between the tracks.

Tour: (machine translated)
The canyon is not unattractive, offers variety and is also suitable for beginners.

Return: (machine translated)
At the exit you meet the paths of the "Parco delle Cascate" and walk on them - between waterfalls - up to the entrance. If you want to avoid possible disputes with the operator of the waterfall course, you pay the due fee of Euro 5 (2014). Then we walk a few hundred meters up to the village.
