Specialities:

Gear:

Summary: (machine translated)
Dry canyon except after rains at the foot of Penyagolosa. Simple left tributary, short but very nice and very vertical right tributary (meetings only for two people). They can be linked the same day.

Hydrology: (machine translated)
Outside the boxed areas.

Access: (machine translated)
We have to go to Vistabella del Maestrazgo where we will arrive by the CV170.
Once in the village, follow the road towards Peñagolosa NP, after passing Les cases de l'Alfori, turn left to Penyagolosa NP and the Ermita de San Joan.
Just before the Hermitage there is a track on the left that goes up to the parking to go to Penyagolosa. In this parking we can park. About 100m before the parking we have a track that goes straight ahead (in worse condition but passable with tall cars), down a steep slope to a hill and then some curves linked (are concreted) and parked.

Approach: (machine translated)
From Penyagolosa parking by the Mas de la Cambreta, is a PR that surrounds the peak, we will pass the Cantal de Miquelet and we will see the right tributary to our right. In the background will be the left one.
From the parking B (Masia del collado) we will go to the south face of the peak by the PR, the red dots will leave us on the left (return path) we continue a little further we see the descent to the left tributary. If we continue along the PR flanking the south face of the peak at the bottom we will see the access to the right tributary.

Tour: (machine translated)
The left tributary is a simple descent with only one important cut at the beginning.
The right tributary, as soon as we enter, we find the 100m split jump.
Later they join and we have 4 simple rappels.

Return: (machine translated)
After the last rappel we will see a watercourse on the left, after a while we will find the path with the red dots that will take us to the access PR.
