Great ambience, slides and possible jumps, narrow gorge character

Hydrology:

Access: (machine translated)
see route in google maps under links, also for implementation

Approach: (machine translated)
Either access from the upper parking lot via a slope into the streambed and then down the scree to the entry point or from the alternative parking lot directly, but without a path, down into the stream near the entry point.

Tour: (machine translated)
see photo album and video under Links

Return: (machine translated)
We get off at the water intake and walk a little way along the canal. Then we take the track on the right bank down the stream. It crosses the stream and we climb up to the lower car in a few minutes.

A nice canyon, but with a lot of brown water. All hooks ok. We couldn’t find the direct path to the upper parking, so we ended up taking the road, it took about 1:10h

Muddy muddy... Probe well before each jump or slide. A cave to visit on the left bank, with a few bats. (machine translated)

We also climbed via the slope to the frame. 10min. stream hike to the 1st rappel. A very beautiful canyon. Because of the murky water, you sometimes can't see how deep the pool is.... (machine translated)

In relation to my 1.Begehung anno 2019 nothing has changed decisively. Also this time we have chosen the convenient entry via the slope. Also has the advantage that possibly the employees of the small power plant take note that someone is now in the gorge zugange. All hooks ok. In the course of the descent, additional water was apparently drained from the small power station. Nevertheless, the flow was unproblematic. Consequently, there was also more water flow in the 2nd part of the channel used to exit.
