Transport:	**Rock type:**	**Drainage area:** km²
Season: June - August	**Orientation:**	**Best Time:**
Rating: ☆ 2.5 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Very vertical canyon of the Gavarnie cirque, very aerial, it is the first of the 3 we have on this floor along with the Casco and the Torre. In winter they are waterfalls of ice

Hydrology: (machine translated)
None once inside

Access: (machine translated)
From Tarbes we head towards Lourdes on the N21. Then we continue towards Gavarnie-Gedre on the D821. Continue towards Gavarnie-Gedre on the D921 to Gédre and from here to Gavarnie. Almost at the entrance of the village we have a detour to the right towards the slopes. We take it and park the car back here.
We continue towards the slopes and the Col de Tentes and park the access car.

Approach: (machine translated)
Access to Sarradets, Casco and Torre ravines
Option 1 - From the Col de Tentes we go up to the Port de Boucharo and from there to Sarradets. We take the path that goes down to the cirque of Gavarnie.
Option 2 - From Gavarnie we go to the cirque and once here we take the path that goes up to Sarradets by the stairs.
Access to Sarradets, Casco and Torre ravines
For one option or another to reach the cut of the cirque, what some call second floor we go to the bottom of the cirque. The first stream is the Sarradets ravine, the second is the Casco ravine and the third is the Torre ravine.

Tour: (machine translated)
Vertical canyon and quite compromised, it may seem that it carries little water but once inside we will see that it is not so and that it is very cold. Be careful with the recovery of ropes

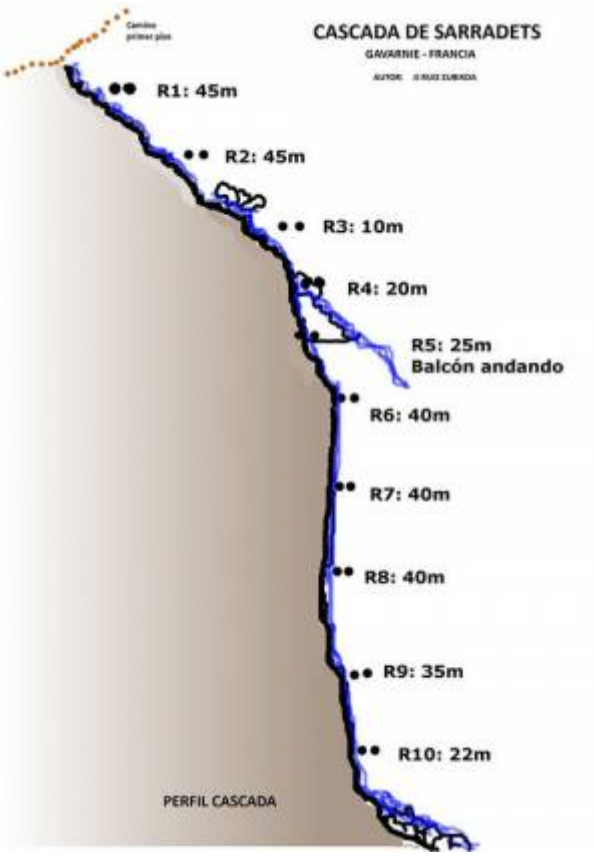

Return: (machine translated)
When we reach the bottom we will take the tourist path of the waterfall that goes down to Gavarnie.

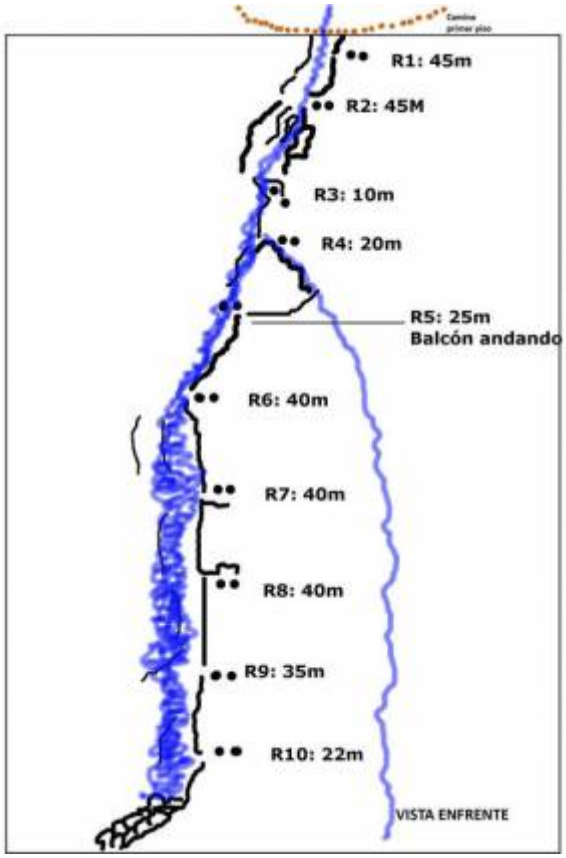

Coordinates:
Canyon Start 42.7011 -0.0169
