Specialities:

Gear:

Summary: (machine translated)
Uninteresting canyon unless it carries a lot of water. A first part of uninteresting ledges and a second with short rappels.

Hydrology: (machine translated)
Open gully, possibility of escape at any time.

Access: (machine translated)
On the A1 in Beasain, turn right to Lazkao and Ataun on the GI2120. We take the detour to Aia on the GI3151 and after km 6, after a right turn, we take the track that goes off to the left. We park the return car below.
Access car from Ataun on the GI4151 to Arratea, passing the Jentilbaratza climbing area. We turn right in search of the farmhouse at the head of the road.
Coordinates:
Parking exit or 1 car: UTM ED50 30 T X: 0567173 Y: 4759891
Head Bridge: UTM ED50 30 T X: 0567905 Y: 4759773

Approach: (machine translated)
With two cars you only have to follow the track up to the head bridge.
With one car you have to climb up to the head of the trail in search of the canalization... this climb is a bit difficult and with a lot of losses.

Tour: (machine translated)
Although officially it starts at the bridge, this part can be avoided because it does not provide anything except for projections and slippery area. Then the canyon closes a bit and we find the rappel area.

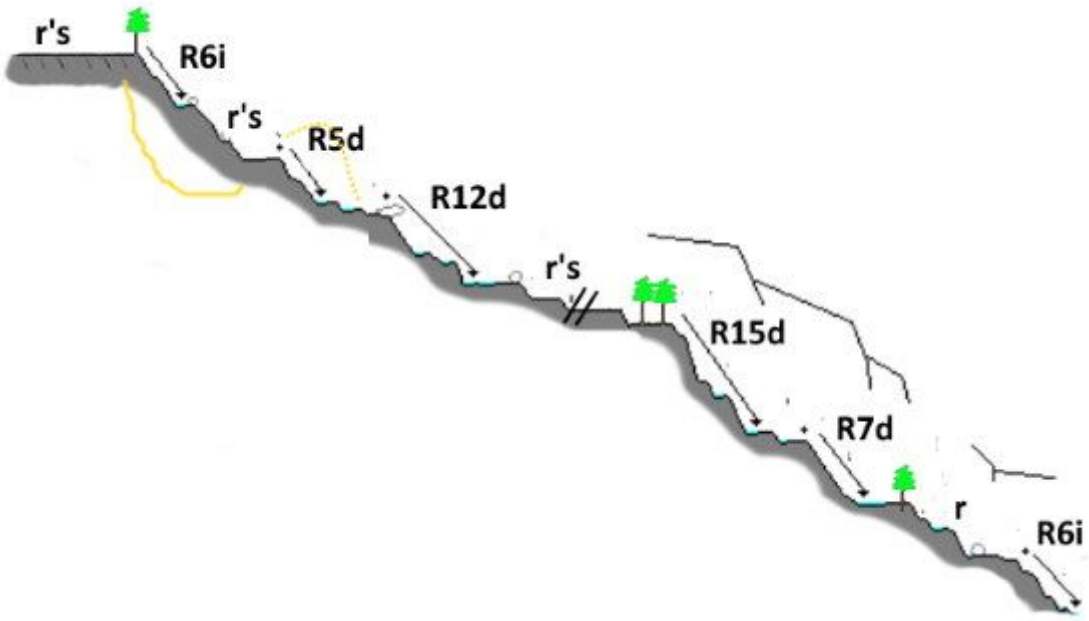

Return: (machine translated)
We turn right between pastures in search of the track where we left the car.
