Transport:	**Rock type:**	**Drainage area:** km²
Season: June - November	**Orientation:**	**Best Time:**
Rating: ☆ 2.8 (1)	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
The descent is not too steep but very aesthetic, entertaining, slippery and quite aquatic. Although it is rather poorly equipped, it is a descent to be done.

Hydrology:
Varios

Access: (machine translated)
From Tarbes we head towards Lourdes on the N21. Then continue towards Gavarnie-Gedre on the D821. Continue towards Gavarnie-Gedre on the D921 towards Luz St Sauveur.
Access to Pont du Sac and Bernede
Before arriving at Luz we will cross the Queen's Bridge and the hydroelectric power station. Here we will leave the car of return.
With the access car we will continue towards Luz and soon we have the detour to the right towards Viscos by the D149. Before entering Viscos we turn left following the road. 5 forks of the road after we have a closed road on the right and the road to "Grust" comes out. We park where we do not get in the way.

Approach: (machine translated)
Along the road from Grust to the bridge over the river from here we access

Tour: (machine translated)
After an uninteresting first part, we arrived at an escape on the left and a second part that was more boxy and interesting.

Return: (machine translated)
Before reaching the D921, turn right and follow the road to the power plant.

Coordinates:
Canyon Start 42.9030 -0.0343

Automatisch importiert von Descente-Canyon.com für Canyon Pont du sac Descendu en intégralitéLa partie haute est équipée en terrain d'aventure très très vieillissantBeaucoup de marche et peu intéressant en-dehors d'une cascade dans une belle etroitureA partir de la passerelle équipement sur broches et davantage de continuité 3 rappels avant la sortie le relais chainé a été emporté avec son bloc support dans la vasque en dessous !En attendant il est possible de descendre sur un arbre en rgPour accéder à la partie intéressante a partir de la passerelle ne pas suivre le descriptif mais se fier à la géolocalisation de la voiture amont, un petit sentier rejoint rapidement le canyon (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21194/observations.html)
