Rappel canyon in gneiss with slide possibilities

Access: (machine translated)
Coming from Domodossala, we leave the A26 at the Gravellona Toce/Verbania exit and go up to Cicogna via Bignugno (see Google aerial photo in photo gallery). Here we park the car.

Approach: (machine translated)
We take the path towards Pogallo. The path first goes about 800m towards NNO, then at the second fork we follow the signpost Teggia, Pian Cavellona. A bridge takes us over the Pogallo. In the climb we pass the ruins of Teggia and finally reach the stream (entry).

Tour: (machine translated)
8-10 rappels, some slides and jumps. There are also longer running sections in between. We descend to the confluence with the Pogallo; as an alternative to the exit described here, you can also get out on the right before the confluence with the Pogallo at the remains of a small wall near the stream and climb up the slope to join the approach path at the top. Follow this to the left over the bridge and back to Cicogna. Finally, there is also the option of descending further in the Pogallo. The next bridge is the usual entry point for this canyon tour.

Return: (machine translated)
A little upstream in the Pogallo we cross to the other bank. Here, a few meters up, we come across a path that leads us upstream to the bridge over the Pogallo. From here we return to Cicogna on the approach path.
