After checking the water level we saw that it was just perfect and went straight in, as other canyons in the region had too much water due to the rain. Great rappels, the highlight the 40m final waterfall with superior views. The belays were all ok. (machine translated)

We only went on the lower part. Equipment ok. Almost completely continuous descents from start to finish. (machine translated)

Done upper+lower Mazarei after heavy rainfall ok to do, but only 3 stars for lower section where all water comes together and make it a short but fun descent in high water. Upper part only interesting to see the many streams joining and practice downclimbing + natural anchors. Comfortable path up to 880masl., but even on a well beaten path, mind the ticks.

We only did the lower part of the Masarei / Rui de Vara. There are about 7 rappels, the highest (final waterfall) is 40m high. Outward journey: 15-20 min. Canyon: 0h45-1h15 Way back: 10min. Outward trail: https://de.wikiloc.com/routen-canyoning/hinweg-masarei-val-di-vara-inferiore-178559977?utm_medium=app&utm_campaign=share&utm_source=14012571 You could also do the canyon from 880m above sea level...
