<b>Summary:</b> (machine translated) Open waterfall canyon, not very attractive		
<b>Hydrology:</b> (machine translated) <a href="https://www.hydrodaten.sg.ch/#4601">https://www.hydrodaten.sg.ch/#4601</a> the Wengibach flows into this stream, theSteinenbach		
<b>Access:</b> (machine translated) From the highway N 3 Zurich-Chur we take the exit Bilten/Rotbrugg (No.43) - 5.5 km after the exit Weesen/Amden at the western end of the Walensee - in the direction of St. Gallen/Schänis and drive to Kaltbrunn-Steinenbrücke (7 km from the highway exit). Shortly after entering the village, turn right into Wengistraße. We now follow this road for 6.6 km until we cross the Wengibach on a covered bridge. We park the car here.		
<b>Approach:</b> (machine translated) Continue on the road, past Vorderwengi (inn) to Mittlerwengi (2 small farmsteads on the left of the road) 1.7 km uphill. In the bend to the left, where the road leaves the edge of the forest, descend to the right over the free slope to the streambed, which is shallow here. A few meters downstream you come to the first waterfall.		
<b>Tour:</b> (machine translated) Open waterfalls in conglomerate rock. It can still be walked when the surrounding canyons are carrying too much water.		
<b>Return:</b> (machine translated) By the covered bridge where the car is, or before that, up the road to the right.
