Country: España / Spain **Region:** Cantabria **Subregion:** Cantabria **Town:**		
Difficulty: easy	**Grading:** v2 a2 I	**Total time:** 55min
Approachtime: 5min	**Tourtime:** 40min	**Returntime:** 10min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 300m	**Highest rapell:** 12m	**Amount rapells:** 4
Transport:	**Rock type:**	**Drainage area:** km²
Season: January - December	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Short, simple but charming, little known, with quick access and return.

Hydrology: (machine translated)
Yes for the forest and meadows.

Access: (machine translated)
We must get to Sangas, in the valley of Soba.
By the N629 from Ramales de la Victoria (p.k. 67) we have the detour by the CA256 to Veguilla. From Collado de Asón also to Veguilla.
Once in Veguilla, at km. 10 there is a detour to Villar and Sangas on the CA663. After one kilometer, at the sharp right-hand bend, we will take the turn to Sangas. One kilometer later we will reach San Bartolomé, and here we turn right to Sangas. Before going up to the village we will find a very sharp left curve, we park here.

Approach: (machine translated)
We leave by the track that goes straight ahead, when we reach the stream we find a bridge, under it begins our descent.

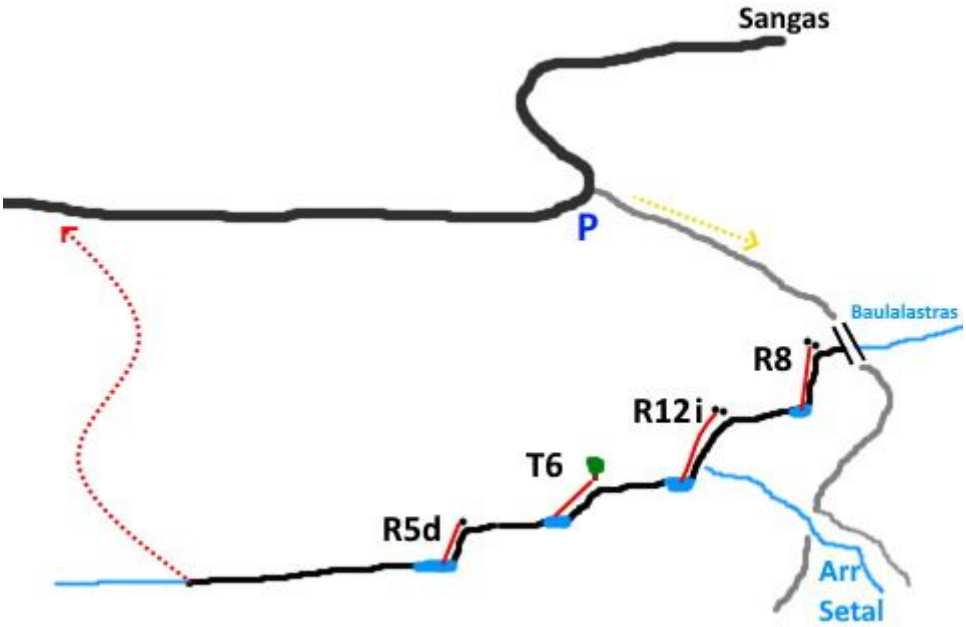

Tour: (machine translated)
First rappel under the bridge with several installations, then a second rappel at the confluence with Setal to a small pool, the third rappel is an unequipped ramp that we can secure from the trees and finally a small grooved rappel.

Return: (machine translated)
We will continue along the riverbed for about 100m to find a small path that leads us up to the road.
