| Summary: Bonito y corto barranco con un rapel de 44m precioso. Cuidado con el caudal!! | | |
| Hydrology: Difíciles pero posibles | | |
| Access: Tenemos que llegar a la localidad de Xertelo, al lado de Cabril. Desde Ourense por la OU312 y luego la N308-1. Desde Verín, Bragança o Braga por la N103. Una vez en Vilar da Veiga nos dirigimos a Ermida por la CM1276 y seguiremos hacia Fafiao y Cabril. Desde aquí subiremos hacia Xertelo y aparcamos. | | |
| Approach: (machine translated) We walk along the Moinho path, after 500 m two interconnected bends and a path with a marker on the left. We take it and continue climbing gently until, at about 850 m, it crosses another path that descends. We will follow it (left) making a bend and approaching the river. After a few linked bends, we take a path to the right that leads us down to the river | | |
| Tour: (machine translated) A small rappel to reach the 44 m overhang, followed by another of six rappels to exit with the 5 m overhang. Emergency exits: Difficult, but possible | | |
| Return: (machine translated) We go out to the left and take a small path that leads us to a road. When we are just below Xertelo, there is a path on the left that leads up to the road and from there into the town. | | |

Poco da Moura and the big pools are great, but getting in and out is a real pain. Bring your own machete.
