Summary: (machine translated)
Forest canyon, north side; as far as at all, not very deep cut, but some nice passages

Hydrology:

Access: (machine translated)
From Château-d'Oex in the Saane valley, we head towards Gstaad. In the next village, Granges, we turn right towards Gerignoz. We drive through a tunnel and then cross the river Saane. We drive through the hamlet, keep straight on and pass the large parking lot of a cable car. The road now bends to the west and 240m after passing this parking lot we turn right onto a small road. Here there is a signpost to the "Cascades du Ramaclé".
2500m after this junction we reach the bridge over the Ramaclé and after another 300m we park our car on the area between the road and the edge of the forest (the path we will follow back up from the bottom right).

Approach: (machine translated)
Behind the pensioner's bench a path goes up the steep slope. We follow it and the yellow markings for a good 10 min. and then come across a track in the immediate vicinity of the stream. We cross the brook to the left and follow the tracks at the edge of the forest downhill. Thus, after re-entering the forest, we come to a bridge over the Braye, the right tributary of the Ramaclé.

Tour: (machine translated)
We climb directly above the bridge into the stream. In the forest we descend in small steps. There follows a longer rappel into the Ramaclé gushing down from the left. The most beautiful rappel follows in a narrow chute, then under the road bridge and in several steps down to the Saane and the wooden footbridge on its bank.

Return: (machine translated)
We take the path along the river bank downstream. Later it pulls up to the road and we come so directly to the car.

Beautiful but short canyon with easy access and exit. Much is overgrown with moss and at the exit you end up directly on the beautiful Saane. (machine translated)

I went right back to drill the southern arm before the confluence, which I find almost better than the already described parts north of it. (machine translated)
