According to the book "50 Canyons in central Greece", we hiked up to 880m above sea level on the orographic page on the left in 1h45 and reached the exit in 4h15. However, the most beautiful parts are after the "Red Waterfall", i.e. in the lowest part of the canyon. Here you can walk up from the parking lot orographic right up to about 420m above sea level.
