Summary: (machine translated)
Also called Barranco de Yera 1. Descent with little water but beautiful waterfalls. Easily combined with the lower part or with Ajam. It is of open character what allows us to get in without fear because we will be able to leave if we see it badly.
Recently reinstalled (2022) by colleagues of the G.E. Niphargus (headers have been duplicated and placed points of approach to verticals).

Hydrology: (machine translated)
Throughout the course, it is very open.

Access: (machine translated)
Access to Vega de Pas area
We must arrive to Vega de Pas. From the N623 in Entrambasmestas we will take the CA263.
Ajam, Ajam Sup, Peñallana, Hormaza, Yera and Yera 2 ravines.
Arriving at Vega de Pas we turn right to Puerto de Estacas de Trueba on the CA631. We will pass Yera and at km 7 approx we have the first bridge over the river. Here we leave the car to return.
We continue along the road and at the second bridge we leave the access car. From here we can observe the waterfall

Approach: (machine translated)
With two cars we will go up the side of the waterfall and when we reach the upper terrace we enter the riverbed. With one car we have to go up to the upper bridge, there is a path that takes us to the side of the river from the lower bridge.

Tour: (machine translated)
The first part is 3 rappels chained in the Yera waterfall, beautiful with the right water. Later, after the bridge we have an area of chaos that we can try to avoid down the slope to reach the next waterfalls.

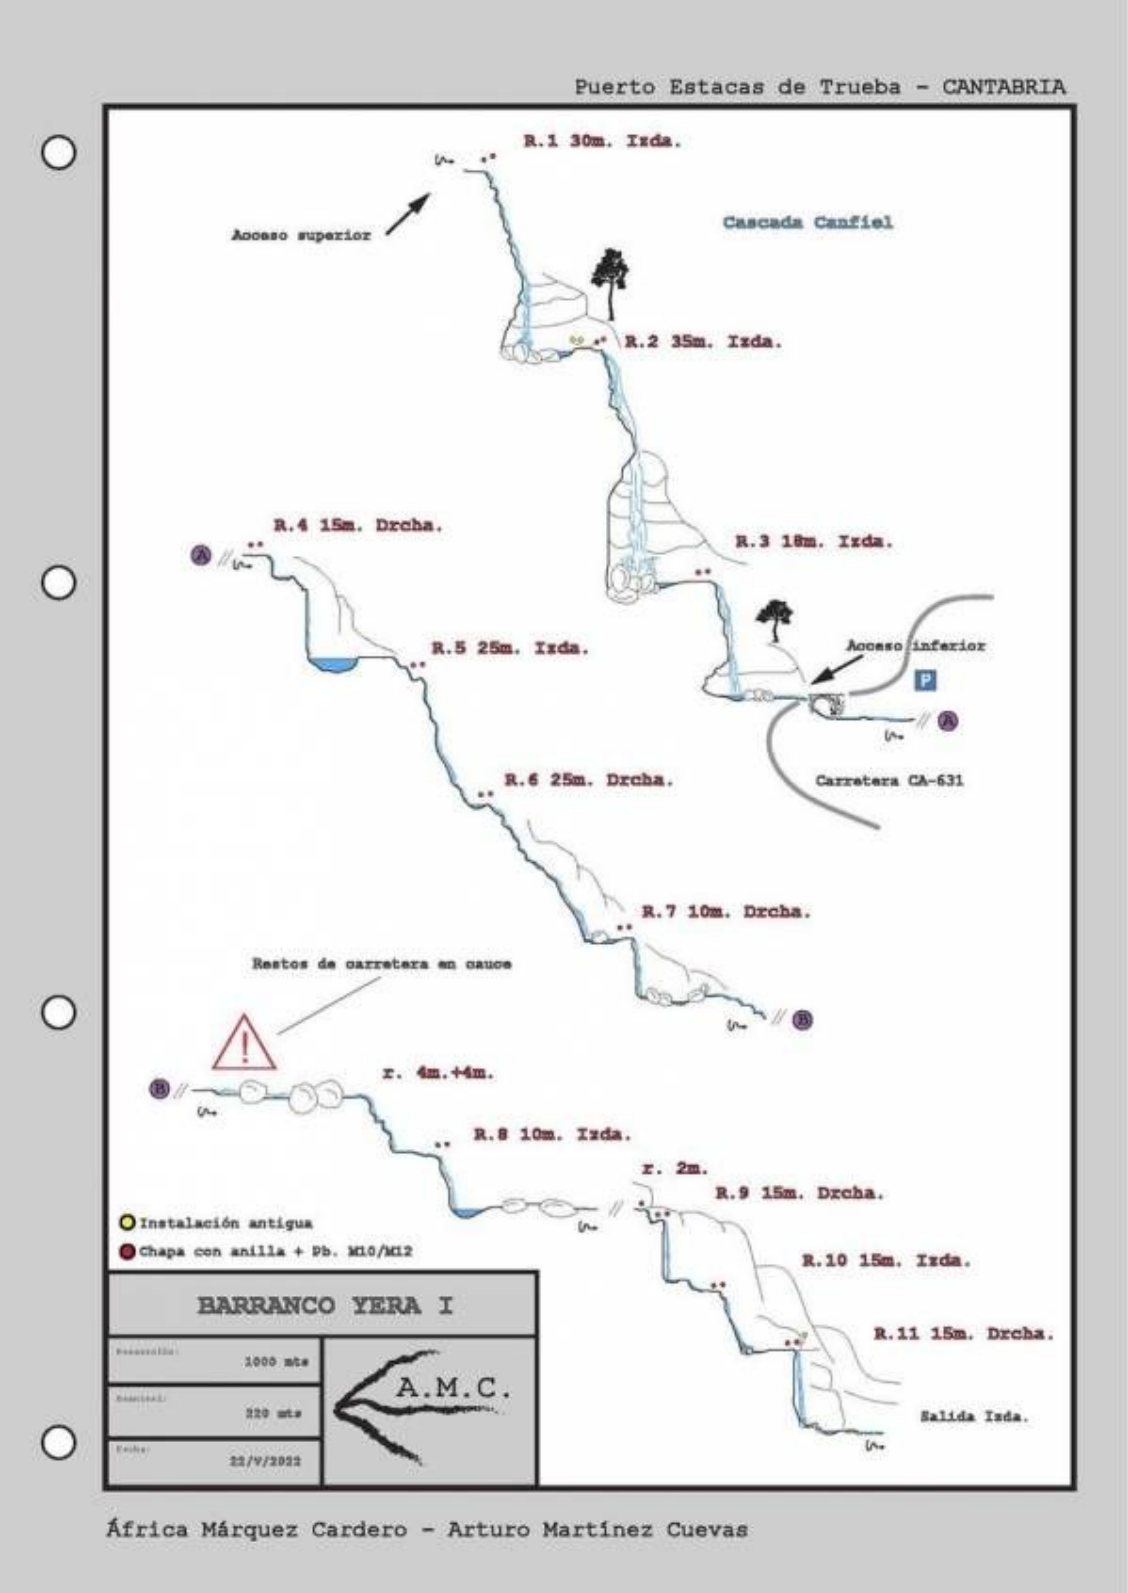

Return:
Inmediato

Coordinates:
Canyon Start 43.1394 -3.7583
