Automatisch importiert von Descente-Canyon.com für Canyon Colombière DC+ after the 30-40mm of rain yesterday the canyon was in perfect condition. Each year more wood in the upper part, but the rest remains clear. At this time of year dont forget to notify the hunters with a text message as marked at the parking (+33777467772) so they can avoid walking above and kicking down stones while we have fun in the canyon. Automatisch importiert von Descente-Canyon.com für Canyon Colombière Sms envoyé à l'ACCA de St Quentin comme indiqué sur le panneau (avec réponse positive de leur part) ... On à même croisé les chasseurs avant le relais ... Ça n'a pas empêché de se faire arroser part de belles caillasses et grosses branches qui aurait pû faire très mal si on avait pas réussi à se mettre à l'abri (depuis la RG en sortie du S ... ça part de très haut !!) donc gaffe ! The water level is good, more trees in the stream than last year. Mainly at the beginning.

Nice canyon and relatively easy canyon. We went after heavy rainfall, so we had a perfect water level. A good water level makes the canyon much more attractive. Furthermore, there are a few narrow sections, and it’s basically in the middle of the forest, so it’s beautifully green. The anchors are in good condition. It is also a good canyon to use for rescue training.
