Summary: (machine translated)
Varied forest gorge

Hydrology:

Access: (machine translated)
To Villebois as described for the Rheby canyon. From Villebois on the orographic right bank of the Rhone on the N 19 about 11 km southwards to Serrières-de-Briord. Park the lower car in the village, do not park by the church at the exit.
Take the second car back in the direction of Villebois. Shortly after leaving Serrières, turn right onto the D32 and follow the winding road eastwards. 2.3 km after the junction, a dirt road leads 400 m down to the stream on the right. Either drive down to the bridge and park there or at the turn-off from the D 32 (parking space is limited in both cases).

Approach: (machine translated)
North of the road bridge down to the creek.

Tour: (machine translated)
Starting in the Trefond, you then come to the Pernaz, in the upper reaches of which the Arodin is crossed.
Prohibited in August and from November 1 to April 14.
Under a bridge, the wooden sign "CANYON: PRENEZ SENTIER RIVE GAUCHE SUR 500 m" should prompt you to continue along the Trefond (i.e. not on the path over the bridge!) and about 50 m further down the stream, turn left onto a path and walk for 500 m alongside the streambed. It is also easy to connect with nearby Rheby.

Return: (machine translated)
After the last rappel (R9 - knot rope to climb again - 2018) into the swimming pool (jump possible) out to the right on a footpath that leads to the church in Serrières.
