Specialities:

Gear:

Summary: (machine translated)
Magnificent descent on the north face of the Zalama, open, long slopes with their corresponding rappels to enter the Vulacabra cirque. Beautiful grassy environment of the Kalera river.
Best in spring and autumn, with water only after rains, in summer it is generally dry.

Hydrology: (machine translated)
In the first part, these grassy slopes are somewhat dangerous, but later on they are even more exposed.

Access: (machine translated)
We arrive at Lanestosa on the N629, at pk 61.2 at a turn with some houses we have the detour to Calera del Prado. We continue to the village and continue to the neighborhood of El Prado. We park at the hermitage.
If we have two cars, we drive up the N629 to the Puerto de los Tornos.

Approach: (machine translated)
How to get to Zalama
From the peak of Tornos we go south to the peak Cantón de la Muela and from there to the peak of Canales. Once here we turn east to the pass and before going up to Zalama we take a small path along the north face of our peak to the head of the Ilsos de Zalama, after this we will pass Zalama 1, Zalama 2 and finally reach our Zangosta.

Tour: (machine translated)
Open and vertiginous, incredible views of the valley that will accompany us on these long rappels.

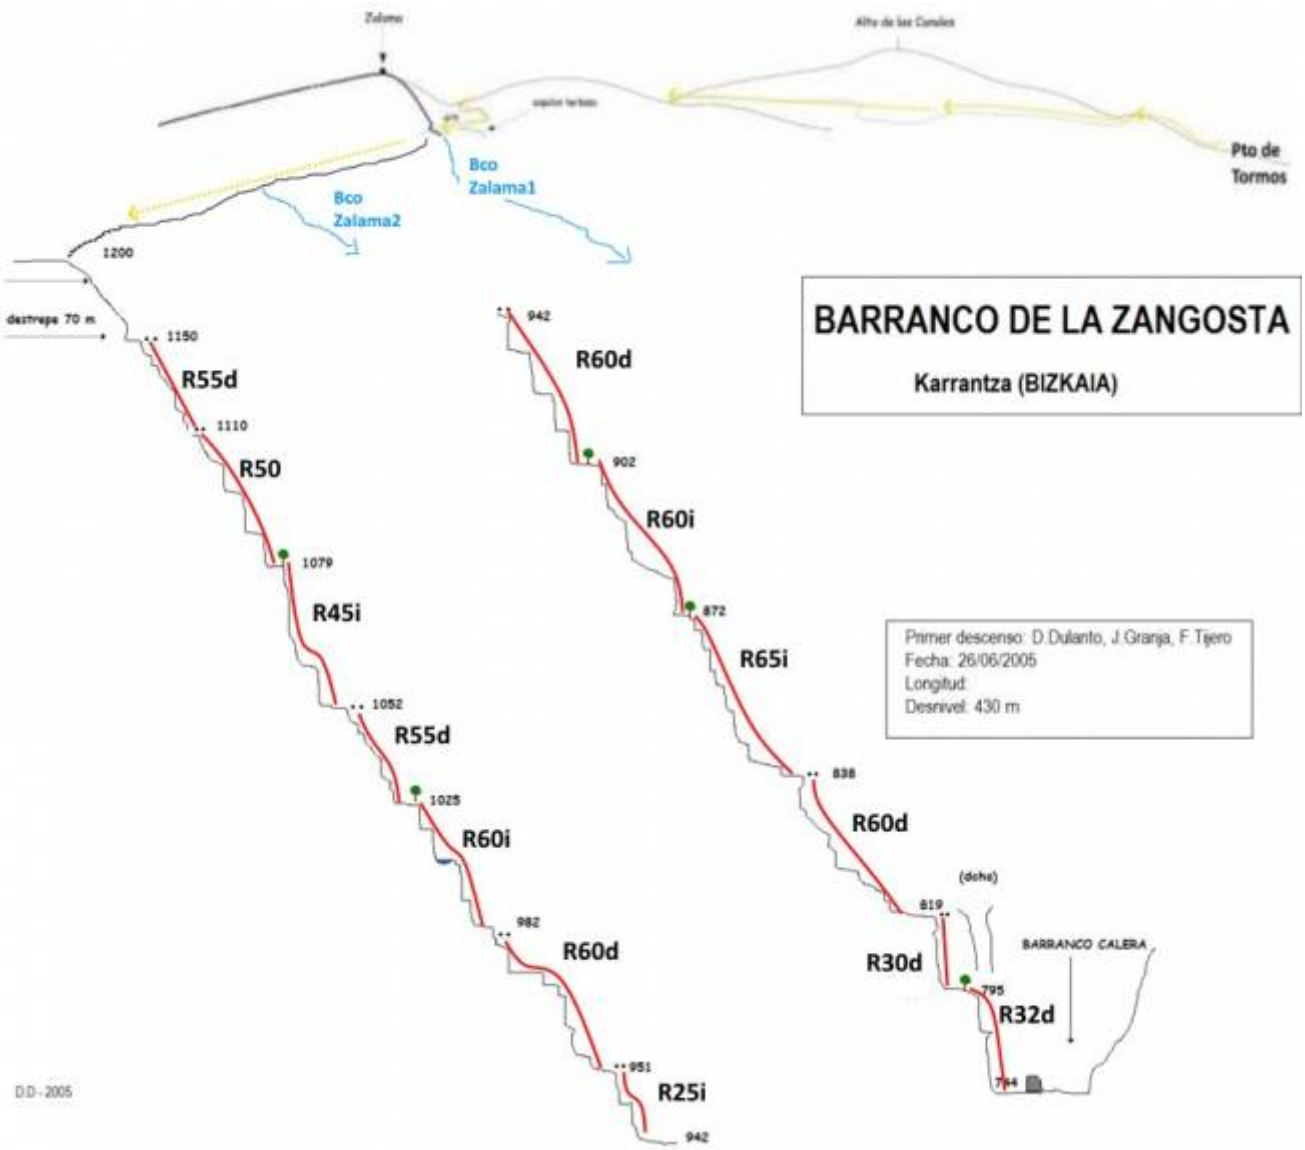

Return: (machine translated)
We will continue along the Kalera river for a few meters until we see a milestone and a small path on the left (access to the Kalera bank), we will follow this path until we reach the Prado neighborhood.
