Ropes: 2x25m

Summary: (machine translated)
Rappel canyon

http://canyoning.pirineos-pyrenees.eu/barranco/8

Hydrology:

Access: (machine translated)
We drive on the N-260 from west to east through Castejon de Sos and then turn left immediately after the church. We follow the road for about 850 m and come to a cemetery to the right of the road. We park the lower car here. Take the second car back to the village (Castejon de Sos in Valle Benasque/Val d'Esera) and drive 1.1 km (from the center of the village) eastwards on the N-260 towards El Pont de Suert. Then turn left onto the road to Liri. 2.5 km after the turn-off, we come to a prominent right-hand bend with a clear widening on the left. We park the top car here.
You can also (if you don't have a second car) take an old path from the cemetery on foot in a north-easterly direction up to the road and - keeping left - come to the entry parking lot described above.

Approach: (machine translated)
Either level north on the path to the stream, which we reach below the 1st waterfall, or up the embankment and the meadow above and beyond into the streambed above the uppermost of the 12 waterfalls.

Tour: (machine translated)
12 rappels in a row, see photos

Return: (machine translated)
After the last rappel down the creek to a slope that crosses the creek. On the slope to the left and in a southerly direction to the (possibly lower) car.

Coordinates:
Canyon Start 42.5307 0.5059
Canyon End 42.5276 0.4936
Parking at Entry 42.5287 0.5043
Parking at Entry 42.5298 0.5016
Parking Entry and Exit 42.5189 0.4907

Automatisch importiert von Descente-Canyon.com für Canyon Liri Début vers 12 h, personne dans le canyon. Sorti en bas sur la piste avant de retrouvé la voiture (navette) au parking à côté de l'aire d'atterrissage des parapentes. Parking du cimetière juste à côté, fermé par une corde. Automatisch importiert von Descente-Canyon.com für Canyon Liri Bajo de agua, algo mejor tras lluvias de ayer. Instalaciones en buen estado, instalaciones de empresas, en ocasiones demasiado alejadas o incluso inexistentes en resaltes de poco interés para empresas. En general, con poca agua, barranco para disfrutar y practicar. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2769/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Liri Accès parking compliqué : des sens interdit ont fleuri. Le parking est tjrs au même endroit, mais il faut partir du gros rd-point en aval de Castejon. Prendre petite route vers le Nord (parallèle au torrent principal) sur 500m, puis au carrefour petite route vers l'Est, qui après un virage à 90 degrés vous fait arriver sur le parking.Accès sans navette également compliqué : le chemin sous la ligne électrique semble avoir disparu, on a pas mal bartassé.Retour également plus compliqué que prévu : la sortie RD au niveau de la vieille conduite d'eau n'est plus possible, le nouveau proprio ne veut plus. Il faut suivre le torrent sur 500m jusqu'à croiser une piste évidente pour la prendre à droite. Continuer tt droit jusqu'à un carrefour à gauche (chemin de rando, panonceau pour canyoniste). Ensuite, tt droit jusqu'au parking du cimetière. Ensuite, canyon bien équipé, personne ce jour là. On a fini avec le tonnerre, sous un ciel bien noir.... Automatisch importiert von Descente-Canyon.com für Canyon Liri Big waterflow, but no problems. It pushes a bit in the active water, but if you think it's nessecary, a lot of options everytime to avoid the water. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/2769/observations.html)
