Summary: (machine translated) River hiking and swim, 4th canyoning section in the Estéron.		
Hydrology:		
Access: (machine translated) From Nice on the N 202 in northern direction 24 km to the Pont (bridge) Charles Albert. Here you can not immediately turn left onto the D 17, but must continue for about 100 m, round a traffic circle, back towards Nice, and then turn right onto the bridge over the Var. Now we go up on the D 17 for about 8 km in the direction of Roquesteron. We reach Gilette, which towers like an eagle's nest over Var and Esteron. We continue on the D 17 for another 4.5 km and then see a dirt road branch off to the left. Here we park our car at the edge of the tarred road.		
Approach: (machine translated) We walk down the slope, take the respective trails to shortcut and come down to stone bridge (Pont de la Cerise) over the Esteron (200 m a.s.l.). The entry on the orographic left side is a bit more pleasant.		
Tour: (machine translated) Magnificent canyon with a natural arch and strong rock faults at the exit. Can be dangerous if the water flow is exceptionally strong. Otherwise also suitable for a family outing (water temperature in summer 17-23°C). Rope is required for rope traverses.		
Return: (machine translated) If the water flow allows, it is best to turn back after the canyon exit and cross the canyon against the current (1 hour to the bridge). If this does not seem possible due to a strong water flow, continue along the river bed, around the next left-hand bend in the river and then look for the start of a path on the orographic right-hand side of the river that leads back over the orographic right-hand ridge (markers 103 - 102 - 101) to the Pont de la Cerise (1.5 hours to this point). From here, take the approach path back up to the parking lot.
