Summary: (machine translated)
Simple and interesting canyon with a couple of long rappels and permanent flow.

Hydrology:
Sí

Access: (machine translated)
We will have to be located between La Seu d'Urgell and Puigcerdà on the N260 at the height of the Pont de Bar. At p.k. 214.4 we have the detour to Castellnou de Carcolze. On this road that goes up the mountain, we will make two horseshoes, in the second we leave the detour to the right to Aristot. We continue up our road and make two more sharp bends to the right and left, after this one a more gentle right with room to park on the left shoulder.

Approach: (machine translated)
We will walk along the road until the next sharp right turn (600m), from here we will take a path that heads north and after 300m, before reaching a hut, we can go left to go down to the river.

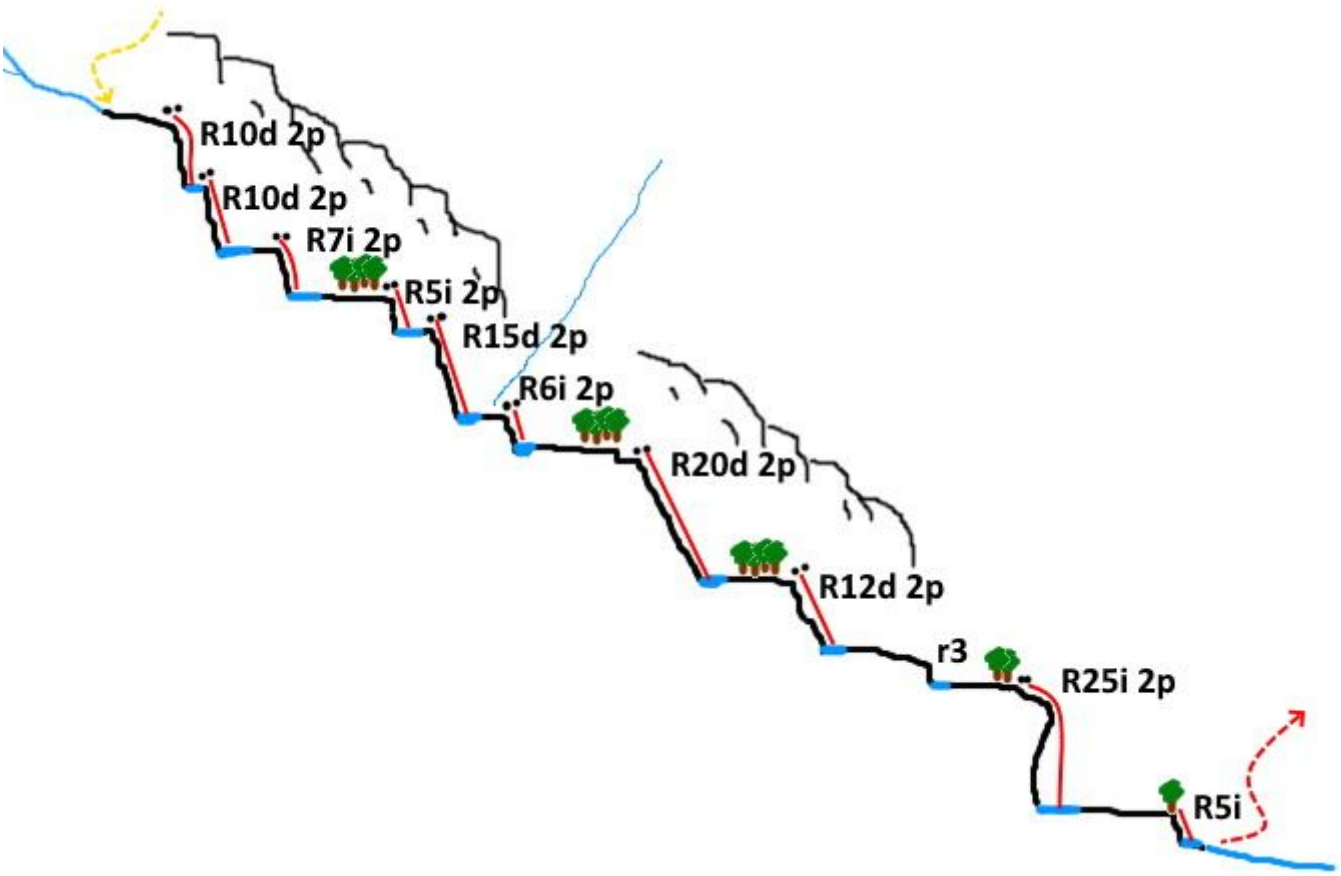

Tour: (machine translated)
Simple, with short and tight rappels, except for the R25 almost at the end, which is a flyer.

Return: (machine translated)
After R25 we will have an R5 from the tree and then we will be able to exit to the left to look for a path that is not very well marked that leads us to the track of a hut and from there to the road.
