| **Country:** Slovenija / Slovenia **Region:** Zahodna Slovenija / Western Slovenia **Subregion:** Goriška / Gorizia Statistical Region **Town:** Bovec | | |
| **Difficulty:** a little difficult | **Grading:** v4 a2 IV | **Total time:** 4h2 |
| **Approachtime:** 42min | **Tourtime:** 3h15 | **Returntime:** 5min |
| **Altitude entry:** 900m | **Altitude exit:** 700m | **Delta Altitude:** 200m |
| **Canyon length:** m | **Highest rapell:** 50m | **Amount rapells:** 16 |
| **Transport:** on Foot | **Rock type:** | **Drainage area:** km² |
| **Season:** | **Orientation:** | **Best Time:** |
| **Rating:** ☆ 3.5 (2) | **Info:** ★ 2 (1) | **Belay:** ★ 3 (1) |

**Warnings:**
*General prohibition of access (Triglav National Park)* (yearly 01.01. - 31.12.)
With a few exceptions (Fratarica, Predelica and Jerečica), canyoning is generally prohibited in the Triglav National Park. For more details see: https://www.tnp.si/en/visiting-park/activities-and-sights/water-sports/canyoning/
Status: 2024 season

**Specialities:**

**Gear:**
Ropes: 2x50m/ 1x30m

**Summary:** (machine translated)
Beautiful, vertical lime canyon with many rappels, including 3 high (40-50m); mostly little water; steep access; some sharp edges and slippery places; ideal with small groups; several exposed belays; rope technically demanding!; Attention at the final rappel --> 25m with redirection right directly to the 45m rappel (! sharp edge, at the chain anchor place for max. 3 people); beautiful view

**Hydrology:**

**Access:** (machine translated)
From Bovec drive towards Tarvisio (N) after approx. 3km take the turn-off to the right Kransjka Gora/ Trenta --> village Soca --> village Pri Cerkvi --> after a hairpin bend follow the road for a short while until you see a walled cemetery on the right --> park here on the left at the gravel turn-off.

**Approach:** (machine translated)
From the parking lot go down a few steps to the Soca --> cross the Soca --> you are now directly at the mouth of the Podolu stream --> follow the narrow path directly left of the Podolu --> after approx. 5min. you come to the final waterfall (approx. 700Hm) (check the water level) --> follow the steep path (left) uphill for approx. 40-45min (partly secured with a steel cable) --> after approx. 200Hm it becomes flatter --> follow the path to the already visible stream (entry at approx. 900Hm).

**Tour:** (machine translated)
The Poule has a very vertical character, high and low abseils alternate continuously (in the canyon, which usually has little water) --> beginners have no place here, as some of the abseils are technically and mentally demanding --> those who have a good rope technique and are familiar with exposed belays will certainly feel at home in this canyon --> there are only a few pools that are suitable for jumping or sliding --> the beautiful view of the Soca Valley and the surrounding mountains are also a good reason to visit this canyon - -> you should be prepared for the last 2 abseils.-> you should plan some time for the last 2 rappels --> to prevent swinging here, first set up a 25m traverse to the exposed belay (right) (the rope traverse can be deflected in the middle) --> on the last rappel (45m overhanging) you should pay particular attention to the sharp edge (work gently).

**Return:** (machine translated)
Exit the creek right after the last rappel (approx. 700m) --> follow the previously ascended path back to the parking lot.

**Coordinates:**

Some of the anchor points were replaced before our descent-new bolts old chain. We also add 2 more anchor - one of them on the last watefall. Worth going after rain. Nice flow!
