Country: Slovenija / Slovenia Region: Zahodna Slovenija / Western Slovenia Subregion: Goriška / Gorizia Statistical Region Town: Bovec		
Difficulty: a little difficult	Grading: v4 a2 IV	Total time: 4h2
Approachtime: 42min	Tourtime: 3h15	Returtime: 5min
Altitude entry: 900m	Altitude exit: 700m	Delta Altitude: 200m
Canyon length: m	Highest rapell: 50m	Amount rapells: 16
Transport: on Foot	Rock type:	Drainage area: km ²
Season:	Orientation:	Best Time:
Rating: ★ 3.5 (2)	Info: ★ 2 (1)	Belay: ★ 3 (1)
Warnings: <i>General prohibition of access (Triglav National Park) (yearly 01.01. - 31.12.)</i> With a few exceptions (Fratarica, Predelica and Jerečica), canyoning is generally prohibited in the Triglav National Park. For more details see: https://www.tnp.si/en/visiting-park/activities-and-sights/water-sports/canyoning/ Status: 2024 season		
Specialities:		
Gear: Ropes: 2x50m/ 1x30m		
Summary: (machine translated) Beautiful, vertical lime canyon with many rappels, including 3 high (40-50m); mostly little water; steep access; some sharp edges and slippery places; ideal with small groups; several exposed belays; rope technically demanding!; Attention at the final rappel --> 25m with redirection right directly to the 45m rappel (! sharp edge, at the chain anchor place for max. 3 people); beautiful view		
Hydrology:		
Access: (machine translated) From Bovec drive towards Tarvisio (N) after approx. 3km take the turn-off to the right Kransjka Gora/ Trenta --> village Soca --> village Pri Cerkvi --> after a hairpin bend follow the road for a short while until you see a walled cemetery on the right --> park here on the left at the gravel turn-off.		
Approach: (machine translated) From the parking lot go down a few steps to the Soca --> cross the Soca --> you are now directly at the mouth of the Podolu stream --> follow the narrow path directly left of the Podolu --> after approx. 5min. you come to the final waterfall (approx. 700Hm) (check the water level) --> follow the steep path (left) uphill for approx. 40-45min (partly secured with a steel cable) --> after approx. 200Hm it becomes flatter --> follow the path to the already visible stream (entry at approx. 900Hm).		
Tour: (machine translated) The Poule has a very vertical character, high and low abseils alternate continuously (in the canyon, which usually has little water) --> beginners have no place here, as some of the abseils are technically and mentally demanding --> those who have a good rope technique and are familiar with exposed belays will certainly feel at home in this canyon --> there are only a few pools that are suitable for jumping or sliding --> the beautiful view of the Soca Valley and the surrounding mountains are also a good reason to visit this canyon - -> you should be prepared for the last 2 abseils.-> you should plan some time for the last 2 rappels --> to prevent swinging here, first set up a 25m traverse to the exposed belay (right) (the rope traverse can be deflected in the middle) --> on the last rappel (45m overhanging) you should pay particular attention to the sharp edge (work gently).		
Return: (machine translated) Exit the creek right after the last rappel (approx. 700m) --> follow the previously ascended path back to the parking lot.

Reports:

2025-08-30 | Tjaz | ★★☆☆ | 📖 ★ | 📍 ★★☆☆ | 🌊 Normal | 🍏 Completed

Some of the anchor points were replaced before our descent-new bolts old chain. We also add 2 more anchor - one of them on the last waterfall. Worth going after rain. Nice flow!
