Specialities:

Gear:

Summary: (machine translated)
Nice descent with only 3 rappels. Keep in mind that the locals close roads and remove the plates ....
Except for the initial part the rest is very open but very aesthetic and the last waterfall is a jewel.
In 2023 they have put a sign prohibiting the descent of the Rio Carbo waterfall (only this waterfall).

Hydrology: (machine translated)
Except for the first part, which is narrower, the rest is very open.

Access: (machine translated)
Located in Villahermosa del Rio.
We leave the village heading north towards Puertomingalvo by the CV175 about 3kms, turn right to Masía Roncales. We go down an asphalted track for about 1 km and we find a detour to the left to Masía Roncales, now on a dirt track. Arriving at the farmhouse and the Posada del Río Carbó we can park or continue a little further along the track up the Carbó River and park.

Approach: (machine translated)
We will follow the GR upstream, leave the Peñagolosa detour to one side and continue towards the hermitage until we reach a large rocky area where we will go down to the river.

Tour: (machine translated)
Simple descent with 4 very aesthetic rappels. Attention to the facilities that may be disassembled.

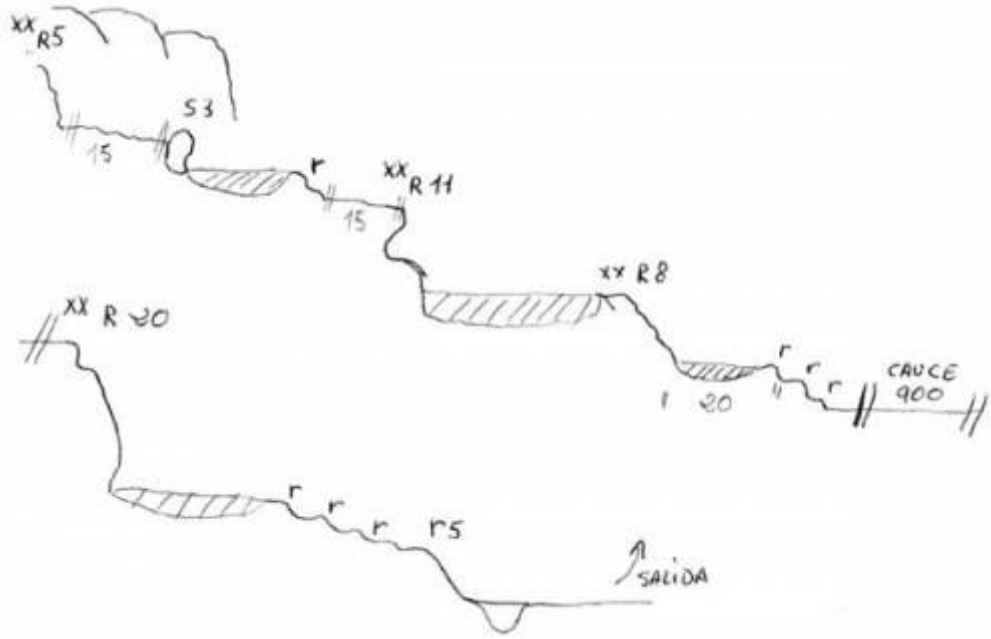

Return: (machine translated)
After the Carbó waterfall, we soon come out on the left to the GR

Coordinates:
Canyon Start 40.2028 -0.4178
