## Specialities:

Gear:

Ropes: 2x60

### **Summary:**

Speleocanyoning

#### **Hydrology:**

Relative small water catchment area, water levels can be checked at the exit, touristic cave entrance and in the upper canyon (40 aniversario)

#### Access:

Valporquero, take first road left (sign for Atalaya), large parking.

### Approach:

From parking Atalaya, head east on a rocky trail to the gated entrance (2025: no key needed).

## Tour:

Many fixed ropes (often 3 lines, it gets busy in high season), but a few absells still have to be installed. The most impressive one is the 3rd one, which is overhanging and dropping into a room with beautiful formations (25-30m). The bigger absells can be broken down to 30'ish meters or done in one go with 50/60m ropes. Two more splashy absells outside, followed by a river crossing or flying fox (tyrolienne).

In high season: count more time and dress warm for possible waiting times.

#### Return:

After the 2 abseils in open air, cross the main stream (if low water) or use the Flying Fox a little downstream.

#### **Coordinates:**

Canyon Start 42.9088 -5.5519

Done after canyon 40 aniversario. High flow but possible thanks to local guide. Luckily i visited the touristic cave as well, bcs the beauty of it is obviously more impressive (lights, deco...) than the traverse. All alone in both the cave, canyon and traverse.
