Specialities:		
Gear: Ropes: 2x60		
Summary: Speleocanyoning		
Hydrology: Relative small water catchment area, water levels can be checked at the exit, touristic cave entrance and in the upper canyon (40 aniversario)		
Access: Valporquero, take first road left (sign for Atalaya), large parking.		
Approach: From parking Atalaya, head east on a rocky trail to the gated entrance (2025: no key needed).		
Tour: Many fixed ropes (often 3 lines, it gets busy in high season), but a few abseils still have to be installed. The most impressive one is the 3rd one, which is overhanging and dropping into a room with beautiful formations (25-30m). The bigger abseils can be broken down to 30'ish meters or done in one go with 50/60m ropes. Two more splashy abseils outside, followed by a river crossing or flying fox (tyrolienne). In high season: count more time and dress warm for possible waiting times.		
Return: After the 2 abseils in open air, cross the main stream (if low water) or use the Flying Fox a little downstream.

2025-03-05 Jeroen Kirchner ★★★★★ 📖★★ 🪚★★★ 🌊 High 🍌 Completed Done after canyon 40 aniversario. High flow but possible thanks to local guide. Luckily i visited the touristic cave as well, bcs the beauty of it is obviously more impressive (lights, deco...) than the traverse. All alone in both the cave, canyon and traverse.
