<b>Summary:</b> (machine translated) Short but fun canyon with two very different parts. The first without difficulties and the second quite sporty		
<b>Hydrology:</b> - TODO -		
<b>Access:</b> (machine translated) We must go to the village of Segura de Baños. Once there by the A-2401 towards Belcite about 3 kms to the bridge that crosses the river AguasVivas. On the left there is a track where we can park, it ends a few meters further.		
<b>Approach:</b> (machine translated) If we do the upper section we must follow the path that leaves the track and in about 10-15 min we reach the beginning of the ravine. If we only want to do the sporting part we can go down the side of the bridge or ride a rappel to the river.		
<b>Tour:</b> (machine translated) The upper part is a walk along the river with curious formations not without interest. At the end of this part (at the bridge) is where the adrenaline part begins with adrenaline rushes, slides and 4 rappels. As well as the jump to the final pool.		
<b>Return:</b> (machine translated) Once we arrived at the old mill, we followed the path to the spa and went up the track to the road. From there a walk to the bridge and the car.
