Automatisch importiert von Descente-Canyon.com für Canyon Valmola Un véritable fossé rempli de bois, dans lequel les habitants sont parfaitement en droit de jeter leurs déchets de jardin et autres détritus. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22478/observations.html)

Anchoring good throughout. We had a rope jam on a tree. It is a good idea to bring some old ropes with you and set up a stand on the tree. Very scenic in the fall. (machine translated)

Compared to our visit 2 years ago, the "wow" effect of that time was missing. In 2023 we admired the rock, today we were more disgusted by the garbage and the stinking water, also because of a dead animal in the water. The quality of the anchors is much better than 2 years ago - but still not perfect. (machine translated)

Some of the anchors could be replaced, as they already look very worn, but are still functional. A lot of wood in the canyon at the moment. (machine translated)
