Beware of falling rocks!
The 200m abseils are extremely prone to falling rocks...
Topographic view PvD not correct for the 200m abseils. First part secured on the right side (4 points), second part secured on the left side (2 points).

Not much water and loooong hike at the exit (about 3h).

Watch out for rockfall! The 200m abseils are extremely exposed to rockfalls.. . Topo PvD not correct for the 200m rappels. First part bolted on the right side (4 points), second part bolted on the left (2 points). Not much water and at the end looooooong walk out (around 3h). Very beautiful canyon but flashed us less then Ademit.
