Forest and meadow brook

Hydrology:

Access: (machine translated)

From the A 13 freeway in the direction of Chur, at the height of Sargans, turn onto the A 3 in the direction of Zurich. Drive past Lake Walen to the southeastern foothills of Lake Zurich and 51.7 km after Sargans you will reach the Lachen exit (No. 41). Here we leave the A 3 and drive in first direction OSO to Siebnen and from there in southern direction over the Sattellegg mountain pass (1190 m above sea level) to the Sihlsee. On the east shore southwards to Euthal. further on the Sihlsee southwards to Unteriberg. Almost at the exit of the village turn right to Oberiberg. Exactly 2 km after this turnoff we park the first car at a suitable place (right below the road farm).\nWith the second vehicle (or on foot) continue to Oberiberg (1.3 km) and there turn right to Tschalun (another 450 m).

Approach: (machine translated)

From the square at the bus stop directly into the stream.

Tour: (machine translated)

Quite open, many small steps, also some possible jumps. The second part is then more interesting with an attractive "crux". If the water flow is strong, you can bypass this narrow section at the top left (then 25m rappel, otherwise 15m longest rappel).

Return: (machine translated)

After the exit of the narrow section, continue for about 100 m in the stony streambed, then turn right onto a dirt road (Holzstadel on the left) and follow it up to the tarred road.
