Hydrology:
No

Access: (machine translated)
We must be located in La Senia
We will have to go from La Senia by the CV105 towards Fredes, when crossing the bridge of the reservoir of Ulldecona, we will see a track on the right by which we will go up with the car. After passing the tail of the reservoir we will have a fork, on the right the Bco de Fou. The track crosses several times before reaching the source of Teix. Here we will park

Approach: (machine translated)
From the fountain there is a marked path to the Cova dels Bous. When you reach it turn left onto the path of the Font dels Hortets. When we reach it we will enter the riverbed.

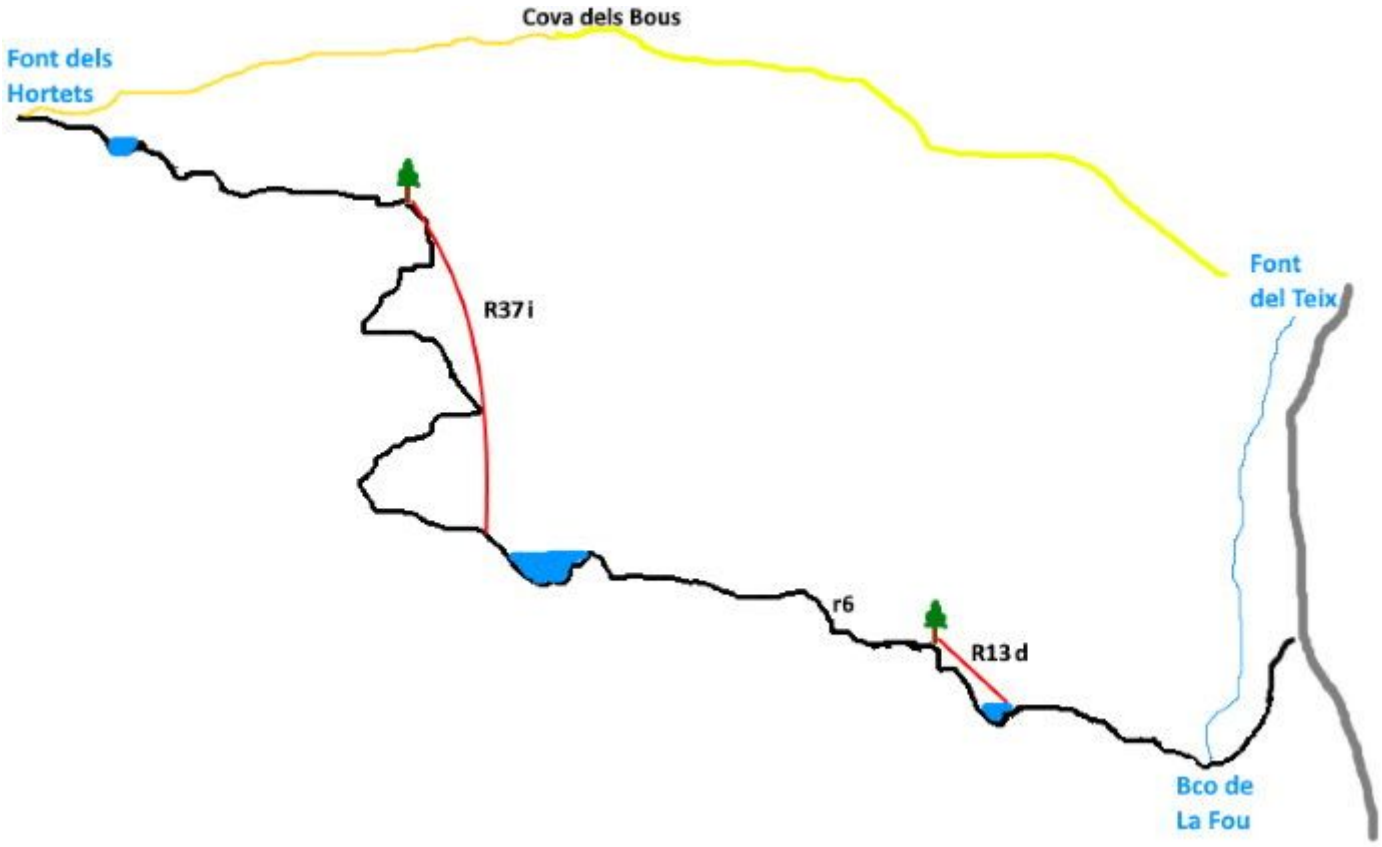

Tour: (machine translated)
Except after rains it will only take a trickle of the source. It is really only the 40m tuff waterfall, spectacular for its formations. Then we will have to climb up a cliff and another rappel to get to the Fou's pool.

Return: (machine translated)
We will go up to the track and from there to the fountain.
