<b>Reports:</b>		
2025-10-18   Stephan Gehringer   ★★ ★   📖 ★★ ★   ⚓ ★★ ★   🌊 Dry   🍏 Completed At 2050 hm got in about 4 rappel left out... After the c30 there is a dead dog... At the last rappel an anchor would have been appropriate... but you could easily avoid it... In the canyon at least 2 downclimbs could be defused... by placing anchors. (machine translated)

2023-07-22   Bubtore   ★★ ★ ★   📖 ★★   ⚓ ★★   🌊 Normal   🍏 Completed Everything is fine. The canyon is particularly exciting in the middle section, still rather open at the beginning, then a bit blocky towards the exit. (machine translated)
