Summary: (machine translated)
The Gorgo de la Escalera canyon is an aquatic canyon for beginners. With a first rappel almost always dry, a second rappel that can be jumped and a succession of small jumps that leads to the 25m.

Hydrology: (machine translated)
Before the long rappel

Access: (machine translated)
We must approach Anna (Valencia). We will arrive by the CV580. When entering the village, from the highway, before the gas station, there is a traffic circle. Take the first exit on the right. 200m further on there is a small road on the left, take it and when you reach the curve at the bottom look for a place to park.

Approach: (machine translated)
We walk back and arrive at the traffic circle. Next to the traffic circle there is also a place to park if you want to combine cars, but it is not necessary, it is a very short way. Here before the bridge we go down to the river.

Tour: (machine translated)
Easy descent except for the 25m rappel. It is an initiation canyon that if taken with a little water is very fun.

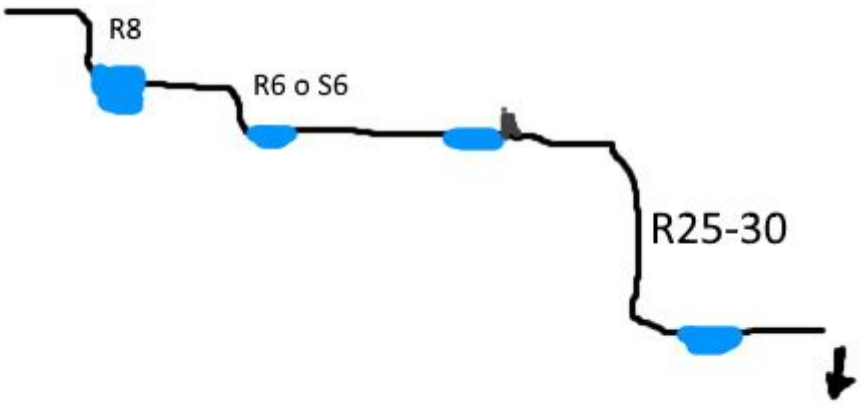

Return: (machine translated)
After the last rappel we have a path on the right that leads to the road where we have parked.
