Specialities:

Gear:

Summary: (machine translated)
Nice canyon that can be easily combined with the Bco Chico. Perfect option for when Liri is over.
Short accesses and returns, in the first part there is a narrow gorge that can give us problems but there are handrails to rappel on the outside.

Hydrology: (machine translated)
Many, see review

Access: (machine translated)
We have to place ourselves in Castejón de Sos
Access to Bcos Chico and Gordo
By the N260 from Castejón de Sos to Pont de Suert, after a few kilometers we arrive at the crossroads of "Liri 5 km" on the left. We will go up this road to the village of Liri. Here we park the return car.
If we have two cars, with the other one we go up to the Ermita del Puy.

Approach: (machine translated)
Approaches to Bcos Chico and Gordo
From the Hermitage we leave by the track in front of crossing the Romanesque bridge (entrance 2) we follow the track, we make a curve to the left and in the following curve to the right we throw ourselves to the left to the river.

Tour: (machine translated)
Nice descent with two parts, the first up to the bridge more fattened and with 3 rappels that in case of strong flow must be circumvented by the handrails. The second part from the Romanesque bridge with the longest rappel but more open and full of slides.

Return: (machine translated)
When we reach the track below we go to the right to the village. If we want to do the Bco Chico we would go to the left.
