Summary: (machine translated)
Waterfall rappel canyon, above the access sewage treatment plant.

Hydrology:

Access: (machine translated)
After bypassing Geneva on the Swiss N 1 after the border on the A 40 in the direction of Lyon, Dijon, Paris, After 25 km (from the border)take exit 11 (Bellegarde Center) in the direction of Fragny, Seyssel. 6 km further, at the exit of Mons, turn right on the D 992 and go through Seyssel and Culoz (another 23 km), where you continue on the D 904 (direction Bourg-en-Bresse) for an additional 8.5 km until Artemare (a total of 62 km from the border).\nWe continue on the N 04 for another 9 km and then join the N 54, which we follow (on the right) in the direction of Amberieu-le-Bugey. 17 km further on we turn right to Tenay. Here we follow the D 21 in an easterly direction for a few kilometers and then turn onto the D 53 to Chaley. Through Chaley further up the orographic right bank of the Albarine we come to the hamlet of Charabotte. Continue on a small road along the river until it finally crosses it. Before the bridge, park the lower car on the left in the large area.\nBack with the other car until we turn left at the entrance of Chaley. After a few hundred meters, we rejoin the D 21 coming from Tenay.\nTo the left, in the direction of Hauteville-Lompness, we go up. Where the road has eaten through the mountain bar when reaching the height - Belvedere -, immediately after, in the bend to the right, park the second car.

Approach: (machine translated)
From the road bend in a northerly direction on paths to the albarine and the entry.

Tour: (machine translated)
Due to wastewater discharge from the sewage treatment plant located above the entry, the sequence of high waterfalls is relatively rarely walked.\nBefore the road pushes through the mountain bar, a path on the left (northward) descends to the waterfall to below the first cascade (possibly also emergency exit)\nGood to combine with the nearby Canyon de Chaley.

Return: (machine translated)
After the last rappel and a short stretch in the riverbed, turn right onto a path and follow it to the lower vehicle.
