Summary: (machine translated)
Rappel canyon in untouched scenic (Upper part hiking canyon).

Hydrology:

Access: (machine translated)
From Zicavo on the D 69 over the Col de la Vaccia south to the road bridge over the Chiuvone. About 2.5 km further on you will come to the road bridge over the Anellu (GPS: N 41° 48.692' E 9° 6.176'). After the bridge on the left place to park the car.

Approach: (machine translated)
From the bridge, go back about 50 meters on the road (north), then follow the sign 'Rocher Oscillante' (Wobbly Stone) and go up on the right into the forest (orange markings). After about half an hour, most of it in the shaded forest, you reach a point that opens the view on the rocky streambed of the Anellu. Here you can enter just above the vertical part, if you don't want to go through the upper part, which is not very interesting, but if you want to go through it as well, follow the path upwards. If you want to follow the path upwards, you will meet the path coming from the left (From the Bergeries de Niellu), on which you will go up following the description in the book of Jourdan/Fiorina. Continue slightly uphill on the now common path for about 10 min. Then keep to the right on the edge of the slope, where you can see the streambed of the upper Anellu. At a suitable point descend there (entry there at 125m a.s.l. - additional 60 min. in the stream).\nNow that there is a direct access up from the bridge, the access described in the book of Jourdan/Fiorina is only an unnecessary detour.

Tour: (machine translated)
The vertical part is not without charm and provides water flow even in midsummer.

Return: (machine translated)
About 50 m before the bridge (left past large stone, black water pipe remains - plastic) after the shallow pool (GPS: N 41° 48'40.92 E 9° 6'13.72) turn right out onto a path that leads to the road bridge.

Automatisch importiert von Descente-Canyon.com für Canyon Anellu Relai de la C10 mériterait un anneau pour une main courante. Difficile pour ma petite de 9 ans. Sortie bien après la C22, ne la cherchez pas tout de suite... le plus simple est d'aller repérer la sortie avant de monter au canyon c'est vite fait et plus rassurant au moment de la sortie (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/22183/observations.html)

Automatisch importiert von Descente-Canyon.com für Canyon Anellu C'est pas les beaux canyon type Vacca et Purcaracha mais l'avantage c'est que c'est plus sauvage. L'équipement et bien.
