Access: (machine translated)
From the town of Bar at the traffic circle turn left towards Ulcinj/Skadar. At the next traffic circle turn right towards Ulcinj/Skadar. Cross 2 traffic lights and at the next roundabout 3rd exit direction Ulcinj. Then at the traffic circle turn right towards Ulcinj. Through the village Zaljev. Turn left towards Ostros and drive up the mountain road. After 9.7Km turn left towards Dabezići (tree in the middle of the road fork). Continue here keeping left. Follow the marker for Markezici/Kelezići. First cross the bridge and then turn right towards Medurec. After a short distance, park the shuttle car at the gravel parking on the right. With the second car, continue along the narrow mountain road from Medurec (first asphalt, then gravel). The second car is parked after about 3 km at the highest point, before the road leads down.

Approach: (machine translated)
approx. 15min/ 1h
From the parking at about 690m with a beautiful view of the mountain landscape of Medurec, follow the sloping mountain road for about 100m. Here you look for a trail marking on the left which you then follow steeply downhill through the sparse forest. A little further down you meet a second path (access path) which you follow to the right. After a few meters you will come to a thin tree with red color markings. Here you descend directly to the stream / entry at about 560m.

Tour: (machine translated)
The canyon is certainly one of the most beautiful tours in Montenegro and offers everything you could hope for from a casual canyoning tour. The highest steps are right at the beginning. This is followed by a longer walking passages. The canyon narrows again and more beautiful pools and steps up to a maximum of 20 m follow.

A little tip: three square boxes at the concreted stream crossing at the exit (access possible) serve as an indicator of the normal water level.

Return: (machine translated)
After the last cascade of about 20m and 5m, following the red dots, you can take a path on the right that runs along the stream, then leads to a fenced meadow and then joins a slope on the right that goes downhill over the stream and leads back to the road. 20 min from the last rappel.

Automatisch importiert von Descente-Canyon.com für Canyon Merdurek Tous les points d'ancrage sont en bon état. Eau froide mais claire. 2,5 heures à deux. Une corde s'est bloquée lors du dernier rappel, et nous avons dû remonter sur corde. Un saut est possible à mi-hauteur ; il est donc préférable de récupérer la corde à cet endroit ou d'utiliser un point d'ancrage deux mètres plus loin. The super-nice Ahmed (broken English, otherwise BKS) from the village next door shuttled us to the entry for 20 euros, as we only had one car. According to his own information, he does this several times a day, so he's certainly happy to see more passengers ◫ The canyon itself was a dream, we walked it comfortably in a little under 2 hours. Rocks with good grip almost everywhere, some slides and jumpables Single hooks everywhere, even a chain anchor in two or three places Don't follow the misleading red marked exit on the left ;) (machine translated)

After a heavy thunderstorm yesterday, the canyon had a nice, comfortable water level today. We were geocache hunting through the canyon in a leisurely 1h50. (machine translated)

The narrow, steep access road has now been asphalted. For the way back you can get off orog. right after a wooden bridge and follow the path to a meadow. After the meadow, the widening path winds back towards the stream. Cross the stream at the ford where you meet the described way back. (machine translated)
