Gear:
Ropes: 2x60m+1x30m

Summary: (machine translated)
Southeast-facing aquatic rappel canyon with high verticals

Hydrology:

Access: (machine translated)
From Kathmandu on the Prithvi Hwy westwards towards Pokhara. After 130 km in 4 hours - if it walks well - we come to Dumre. You can also get here from Pokhara after 67 km in a good 2 hours. In Dumre we turn northwards into the valley of the river Marsyangdi and reach Besisahar after 42 km and 1.5 hours. Here the paved road ends (2011). Now on dirt road 24 km or 75 min. further to the village of Syange. This is also the approach if you approach the Annapurna Trek from the east, i.e. counterclockwise. Here or in the vicinity (e.g. in Germu on the other side of the river) we take up quarters for the ascent of the surrounding canyons.

Approach: (machine translated)
We walk in the street village of Syange on the dirt road in the southern direction and then take the path up to Mipra. Before reaching the first houses of Mipra, we take the stair-like path that goes up in a northerly direction to the shoulder of the mountain. Once there (1630 m altitude), we take the path that leads beyond down into the hollow where we reach the stream.

Tour: (machine translated)
see in particular photos and toposketch (under "Photos" - (C7, C4 + T20, C11, C10, C13, C130 (25 + 45 + 60), T10, T10, T10, T10, R6 + T12, C90 (30 + 60)

Return: (machine translated)
After the long final rappel above the water drainage down to the power station on the road.

Coordinates:
Canyon Start 28.3867 84.3942
Canyon End 28.3859 84.4002
