Summary: (machine translated)
This canyon is generally dry except after rains. A first part of projections and small rappels to lead to the final vertical of 100m split over the road tunnel.

Hydrology: (machine translated)
Before the big vertical on the right ledge. Or on the vertical along the tunnel ledge.

Access: (machine translated)
We are located in Ainsa (N260), we will take the A138 towards France through the Bielsa tunnel. After a few kilometers we will pass through Labuerda and at pk57 we arrive at Escalona. We will continue towards France passing through Lafortunada until the detour to the valley of Chistau/Gistaín (A2609).
With the return car we will continue a couple of kilometers to the height of the tunnels where we will park just before.
With the access car we will go up to almost Saravillo and after passing the cheese factory at about 60m we will turn left at the height of the containers. From here we will take a track that after 3kms will take us to the ravine, where we will park.

Approach: (machine translated)
Access: Gallinés sup and inf
With two cars immediate access.
With only one car we would go up to the access by the aforementioned road.

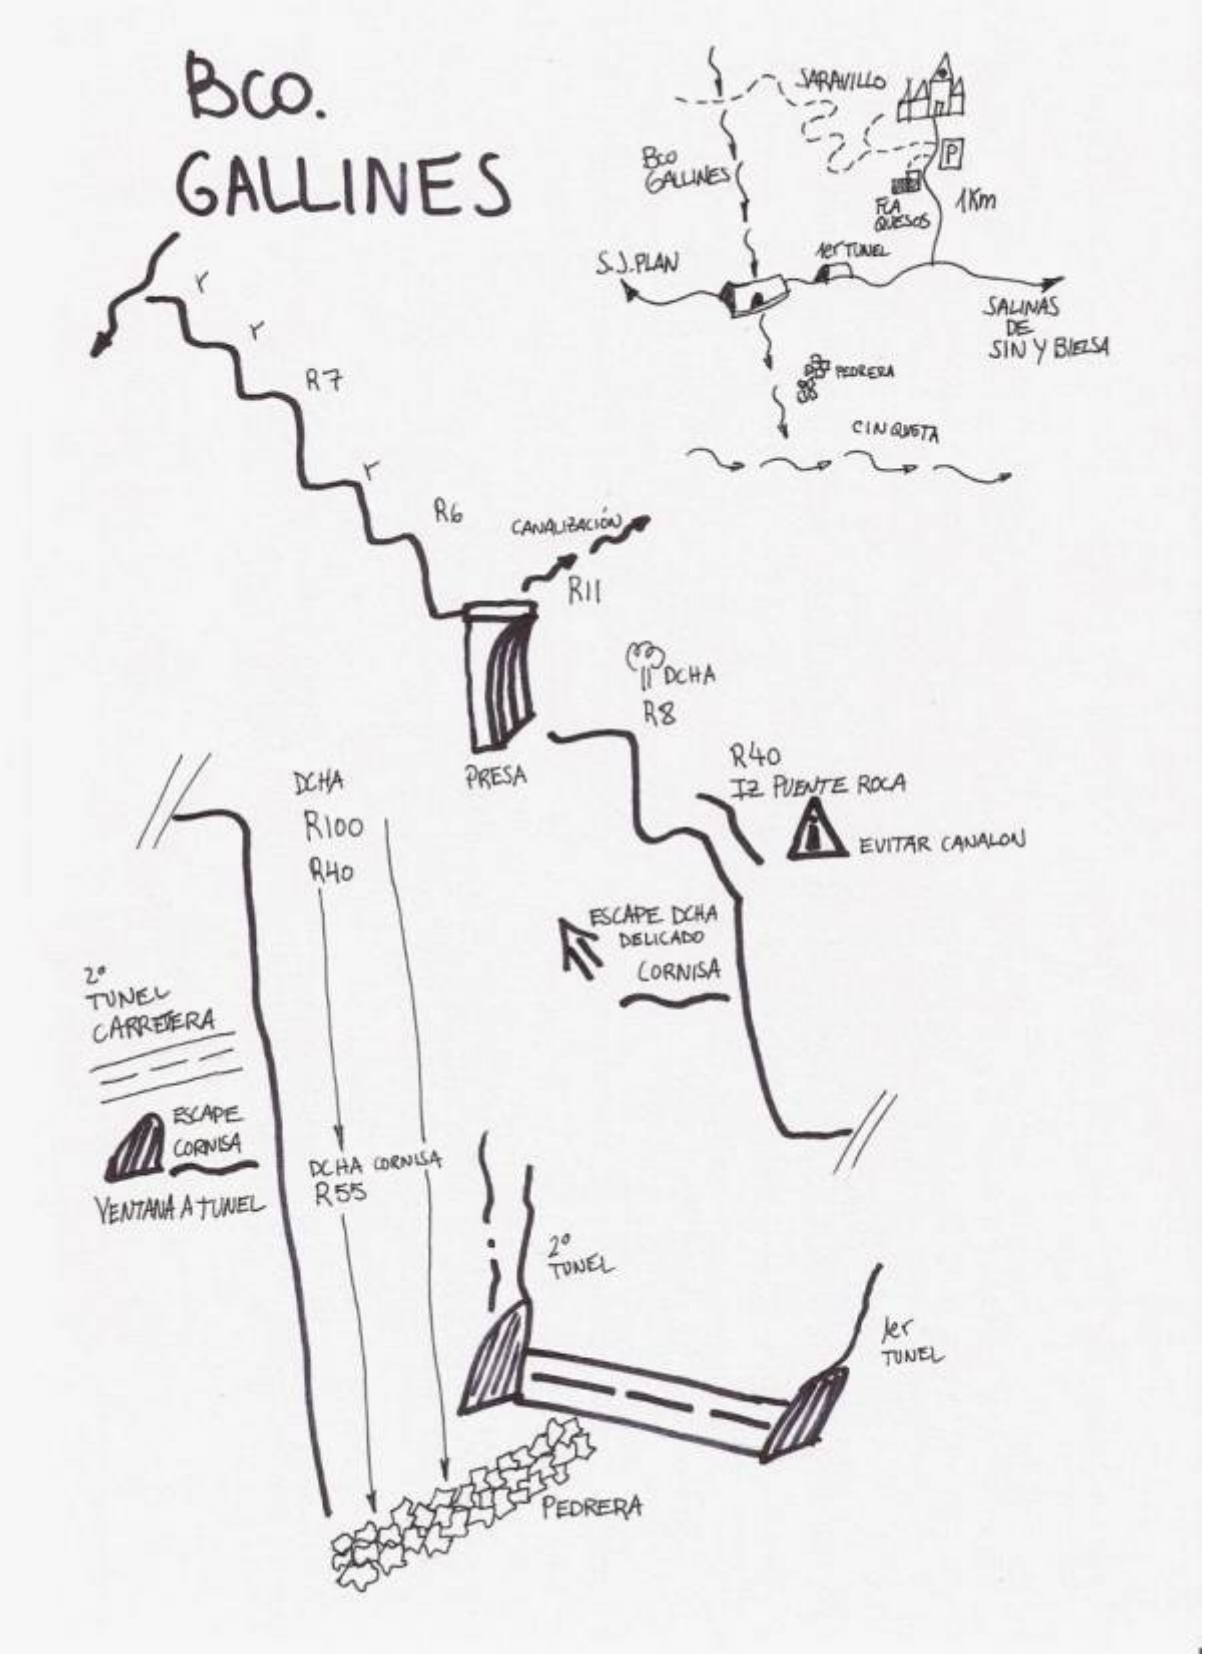

Tour: (machine translated)
The first part of the canyon is made up of small abseils and small rappels up to the canalization. After this comes the vertical part of the canyon until you reach the rock face at the bottom.

Return: (machine translated)
From the stone quarry we will go up towards the road
