From the Val d'Aran on the N230, or from France on the N125 and turn off at Chaum on the D125 to Bagneres de Luchon. Also from Bossot on the N141 via the col du Portillon.

Automatisch importiert von Descente-Canyon.com für Canyon Sidonie La instalación de la primera cascada está en un arbol en el centro con cordino y maillon , es solo un cordino, por lo que sería mejor reforzarlo con otro. La tercera cascada tiene la instalación a la derecha orográfica, es muy difícil de ver porque está parcialmente tapada por la vegetación. Pero está pasable, con dos puntos, un parabolt en buen estado y un anclaje antiguo oxidado. (Quelle: https://www.descente-canyon.com/canyoning/canyon-debit/21569/observations.html)
