Specialities:

Gear:

Summary: (machine translated)
River walk with swimming passages and a few rappels.

Hydrology:

Access: (machine translated)
From Lago d'Idro (Anfo or Ponte Caffaro) on the SP 669 up to Bagolino. Just before reaching the village, we already cross the Caffaro - (here is the entry to the lower part). Passing Bagolino we continue on the SP 669 and about 5.5 km after the village we come to a bridge over the Caffaro (Ponte Dasarè). Here we leave our car in a suitable place (parking access). A shuttle would be possible, but is not really worth it because of 850m return. Better one walks without luggage back to the car, while the others wait with the luggage.

Approach: (machine translated)
We rope down from a tree into the river.

Tour: (machine translated)
4 rappel, nice the 30m rappel, otherwise not very interesting locomotion in the riverbed. Exit to the left, where the riverbed becomes wider again.

Return: (machine translated)
Up the embankment and past a house to the road.
