Country: España / Spain **Region:** Cataluña / Catalunya **Subregion:** provincia de Lérida / Provincia de Lleida
Town:

Difficulty: not as difficult	**Grading:** v3 a3 III	**Total time:** 4h
Approachtime: 15min	**Tourtime:** 3h	**Returntime:** 45min
Altitude entry: m	**Altitude exit:** m	**Delta Altitude:**
Canyon length: 350m	**Highest rapell:** 30m	**Amount rapells:** 14
Transport:	**Rock type:**	**Drainage area:** km²
Season: September - May	**Orientation:**	**Best Time:**
Rating: ☆ 0 ()	**Info:** ★ 0 ()	**Belay:** ★ 0 ()

Specialities:

Gear:

Summary: (machine translated)
Subsidiary torrent of Vilacireres by its left margin, it is a different way to access this other with a magnificent waterfall of 30+15m end before the confluence, the facilities are somewhat precarious in the tributary and will force us to carry spare material. To be done after rains.
The bad part is the obligatory and long combination of cars.

Hydrology:

Access: (machine translated)
We will leave Sant Llorenç de Morunys towards Berga on the LV-4241 road at kilometer 24 of the LV-4241 road, and before passing the river Aigua de Valls (Pont de Valls), there is a road on the left, which we will take.
Car 1:
Continue up the road, which reaches Vilacireres until it becomes a track, ignoring all the roads and tracks that we will find parallel to the river Aigua de Valls, until the track turns left perpendicular to the river. Here we will leave the car to return.
Car 2:
We continue along the track and about 5 kilometers later we will have the parking 2 where if our cars are cars we will have to leave it.
If you have 4×4 or tall cars, you can continue to parking 3 or even continue to Cal Pelegrí.

Approach: (machine translated)
If we have parked at Cal Pelegrí it will be just to go down the track to the stream.
If we have parked at P3 or before reaching the stream bed, we will have several tracks and trails to go down to the stream.

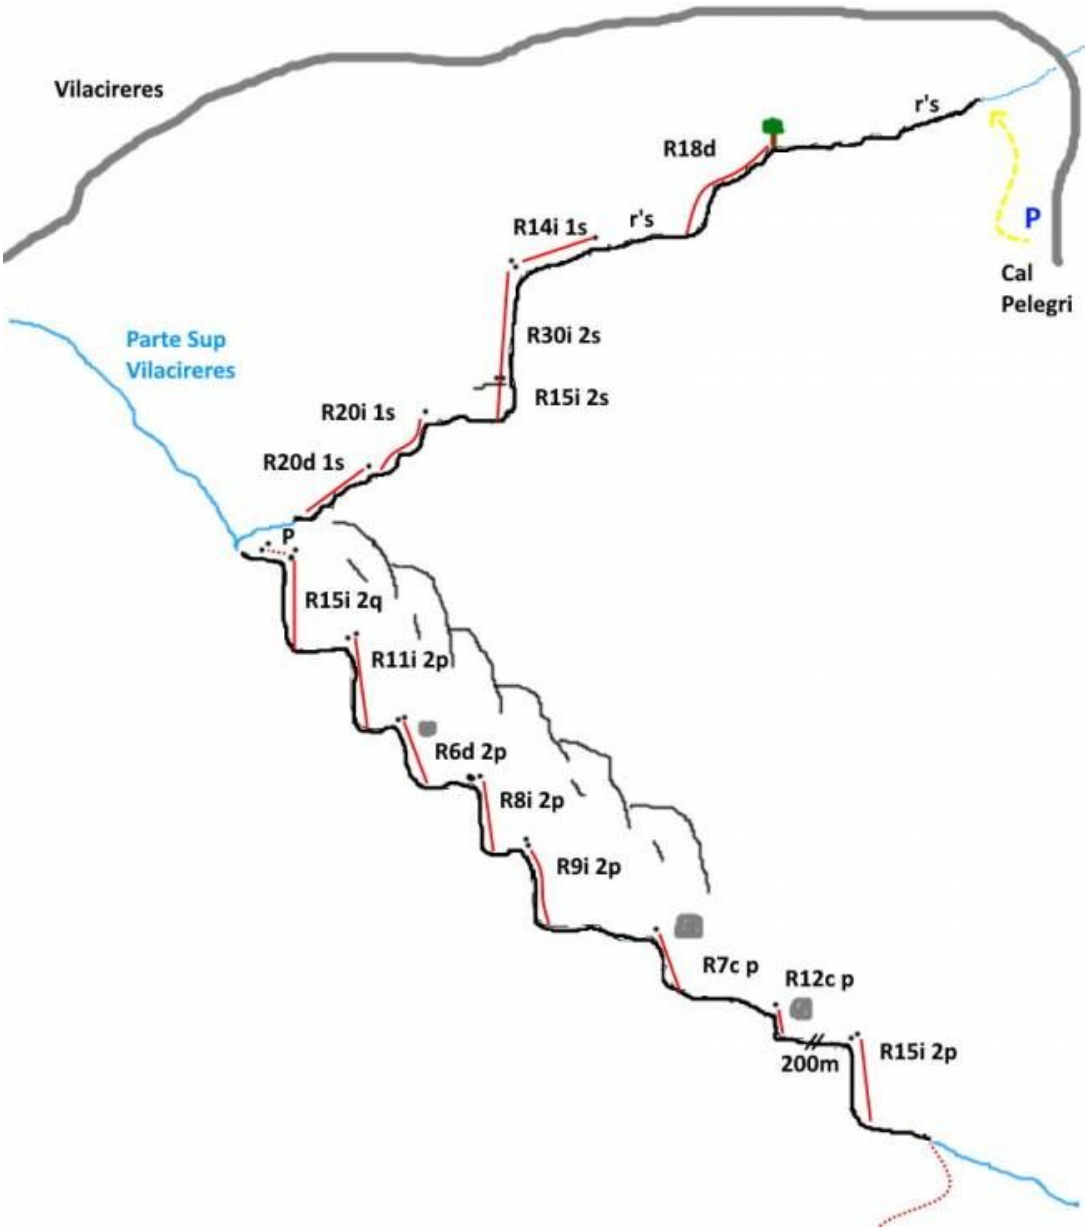

Tour: (machine translated)
The first part of the course consists of a tree rappel to reach a vertical of 30m, then 2 rappels to reach the Vilacireres river bed.

Return: (machine translated)
About 150 - 200m after the last rappel we will see a milestone on the right along a faded path in ascending direction. We will reach the end of a track, we will follow it to the road where we have the cars.
