Summary: (machine translated)
O del río Amadorio, is a ravine without great flow, with two rappels to descend from the dam, with the rest of the route through a nice narrow.
To be done after rains with neoprene so that it carries flow and is clean, or in summer that the pools are dry, without stagnant water.

Hydrology:
No

Access: (machine translated)
With the car back we are located in Orxeta, for it from Villajoyosa we take the CV770, shortly before reaching Orxeta we have a detour to the left to the neighborhood of El Collado. We will park just at the end of the street.
With the access car we continue along the road towards Relleu, and after 2.5 kms we will find the detour to the left on the CV775 to Relleu. We will reach the village by this road. In the village we have the detour to the left to the "pantá de L'Amadori", we enter this zigzagging road until just before crossing the river, where a track to our left towards the dam. We will park here, we could continue a little further along the track but with a tall car or 4×4 until the tail of the dam.

Approach: (machine translated)
We will follow the trail to the reservoir, here we change banks and, now on a path, we continue to the dam where we will find the first rappel.

Tour: (machine translated)
A first rappel from the left side of the dam of about 20-25m, then a short climb to reach the handrail of the second rappel. With 70m we could reach this handrail.
After these rappels we get into some beautiful narrows with water.

Return: (machine translated)
When the narrows begin to open we can climb up the left slope to the Barrio del Collado.
